BOARD OF ALDERMEN,

FEBRUARY 13, 1865.

The following communication, being the Eighth Annual Report of the Board of Central Park Commissioners, comprising a full report of their proceedings, with a detailed statement of their receipts and expenditures, during the year 1864, was received, laid on the table, and the usual number of copies directed to be printed in Document form.

D. T. VALENTINE,
Clerk.

To the Honorable the Common Council of the City of New York:

In obedience to the requirements of the statute, the Board of Commissioners of the Central Park respectfully submits this report of its proceedings for the year ending with the 31st day of December, 1864, being its eighth annual report.

In prosecuting the work during the past year, the Board has confined itself to the advancement and completion of structures previously designed and in process of construction and to forwarding the drive in the upper part of the Park, in order that its whole area might be rendered accessible to the public at the earliest practicable date. With the exception of the expenditure upon the inclosing wall, the main outlay of the year has been upon that portion of the Park lying above One Hundred and Sixth street, upon which the Board could not properly commence work till the protracted legal proceedings for its acquisition were complete. The addition of this land to the Park can scarcely fail to be a continuing source of satisfaction.

The force employed during the year has been considerably diminished.

The stonework of the Terrace being now complete in its exterior, with the exception of a few details, affords an opportunity for observation of its proportions and of its adaptation to the purposes for which it was designed.

Being the central and main architectural structure of the Park, to which all others were intended to be subordinate, and being, with its connections, the principal assembling place for pedestrians, it seemed fitting that an expenditure should here be made commensurate in some degree with the important relative position that this structure was to hold.

In its design and in the elaboration of its details, the aim of the Board has been to maintain purity of taste and skillfulness of execution ; the general objects of the design

have, it is believed, been attained and agreeable connection secured between the formal lines of the Mall and the Terrace and those of the adjacent natural surfaces.

From the centres of two smaller fountain basins that have been completed south of the Terrace small jets rise, which, with the intended arrangement of an evergreen hedge and two ornamental drinking fountains at the head of the Mall, will realize the effects intended at this locality.

The Board has commissioned Miss Emma Stebbins to model the principal figures of the fountain on the Esplanade north of the Terrace. As this fountain in connection with the Terrace forms a most important feature, and as much time must necessarily elapse before it can be completed, the Board has felt it proper in this instance to depart from its general determination not to make any considerable expenditure in the purchase or procurement of statuary or works of art.

An archway of iron carrying the walk over the Bridle Road at the southwest of the grand Reservoir, has been completed. The rustic wooden bridge across the ravine, a rustic stone bridge across the valley below, and an iron archway at the north of the grand Reservoir, are well advanced.

The foundations of the intended archway to carry the walk over the Bridle Road, up to the south gate-house, are ready for the finer stone and iron work.

The archways and bridges above mentioned comprehend all of this class of structure that the Board at present intend to construct.

During the past year one mile of drive has been completed, and there are now complete and in use nine miles

of drive ; of the ride there are about five and a half miles complete and in use ; of walks, about one and a half miles were completed during the year, making in all now complete and in use about twenty-two and a half miles. The finished portion of the drive, with about half a mile now incomplete, but well advanced, comprises all of the drive at present contemplated.

The aim of the Board has been at the north end of the Park to preserve, as far as possible, existing bold and striking natural features of the landscape.

The earth and rock excavation and filling required for a Lake of about twelve acres, at the northeast corner of the Park, as also the excavation for a narrower body of water in the valley, are well advanced. Their outlines are now in the process of development, and it is hoped will be finished in the coming season.

On the brow of the broken and precipitous hills, now a part of the Park that bound the Harlem plains on the south, may still be seen the remains of military fortifications, consisting of breastworks of earth about three feet in height. These works formed a part of a chain of fortifications of the war of 1812 that extended from the Harlem to the Hudson river, passing across the Park to a point a little west of what is now the Eighth avenue, and extending along the rocky eminence on the west of the plains to Manhattanville. The stone structure still standing on the rocky bluff overlooking the Harlem plains formed a portion of this line. A roof, added at a later date, rendered it serviceable as a powder magazine. In making some earth excavations on the northerly slope of the great Hill, about two

feet below the surface the remains of a military encampment were found. The ground in spaces of about eight feet square was compactly trodden, and in a corner of each space was a recess rudely built of stone, for a fire-place, with straps of iron, that seemed to have been used in cooking. Shot and bayonets were also found in the vicinity. There is sufficient known of the history of this property to warrant the belief that it was passed over, and perhaps occupied during the year 1776 by the British and Hessian troops shortly after their landing on the island, and that it was occupied in the war of 1812 by the American troops. The relics alluded to belong probably to the latter period. During the war of 1812 a barrier gate was erected at McGown's pass across the eastern post road that passed to the east of the present Mount St. Vincent buildings, where that road intersects the line of One Hundred and Seventh street. At this gate sentries were posted.

The remains of these works that so much enhance the interest of this section of the Park will, as far as practicable, be preserved.

The excavations for the foundation of the exterior wall, the preparation of the slopes, and the laying of the foundation for the wall, have formed an important portion of the work of the year, and are nearly complete for two-thirds of the distance around the Park.

The disturbed condition of values of material and labor has rendered it difficult to forward the superstructure of the wall as rapidly as was desired. In addition to this the difficulty in getting stone suitable for the upper portion of the wall at prices at all admissible, has tended to retard

this character of work. It seems now that it will be better not to rely upon the stone of this island for the upper and more conspicuous part of the wall, but to select some stone more easily worked and less liable to changes in color.

In planting progress has been made to the extent of 20,658 trees and shrubs during the year. Of these 8,379 were taken from the Park nurseries.

Experience clearly shows that it is not, as a general rule, economical to plant trees of very large size; those of less size carefully transplanted and well cared for being much less likely to fail in the process, and generally making far better trees.

There are frequent instances of the successful transplantation of quite large trees, but the increased expense and the great liability to die out in from one to four years after their removal, point to the economy in time and money and in the ultimate perfectness of the trees to the superiority of the practice of removing trees of the usual nursery sizes.

With the growth of the earlier planted trees much of the impatience that was expressed in the first years of the Park for the immediate planting of large trees seems to have yielded to a recognition of the necessity of time to produce trees of luxuriance of growth and perfection of form. An investigation of the formerly much-alluded-to successful results of foreign transplantation of large trees will not, it is believed, justify the practice. Loudon, than whom few have been closer observers of trees, distinguished as a botanist, as a landscape gardener, and as a writer on the subjects—in some observations indicating

how much he found to admire in trees in their younger growth, says :

"If we compare young trees with old ones in these respects, we think it will not be denied that young trees are objects of much greater interest than old ones. In a picturesque point of view, we allow that the old tree has an advantage; it has also the advantage in point of shelter and shade; and if it were to be cut down it would produce more timber. But will an old tree prove a source of as much interest to the possessor of it, by its variations, in consequence of its yearly increase in size, as a young tree, provided that the possessor has a historical and gardening knowledge of trees? We think not, and we would only ask any one who is of a different opinion whether, if he were to be allowed to have only one tree in his garden, he would prefer a tree of ten years' growth or a tree that was already full grown? With the latter tree the mind is carried back to times which, though interesting in some respects, it is desirable should never recur, with the former it is carried forward along with all the improvements which are now contemplated or in progress, in civilized society throughout the world. For our own part, independently of all moral, historical, and economical considerations, so great is the botanical and horticultural interest connected in our minds with young trees, and so delightful to us the idea of preparing the soil in such manner as to cause them to grow with extraordinary rapidity, that, if any one were to present us with a timbered estate, the first thing we should do would be to cut down all the old trees and to plant young ones."

In these remarks our author is influenced more by the interest of a botanist and an individual owner than most of the visitors to a public park would be. But these views serve to suggest the advantages that are found in young trees.

With the exception of small areas, principally at the north end and along the borders, the surface of the Park has already assumed the general form proposed.

The modes of fertilization have varied according as circumstances rendered one material or another less expens-

ive or more advantageous. In the past two or three years the expenditures for fertilizing have been greatly diminished.

In its report for the year 1863 the Board made the following statement: "The continuing advance in the price of labor and materials renders it at this time impossible to make reliable estimates for the future work of the Park. These prices already exceed, in many particulars, those contemplated in the estimates upon which the Board have based its plans for the completion of the Park." The same causes have continued through the past year to an extent that renders the sum of money now at the disposal of the Board inadequate to the completion of the work.

The Commissioners of the Park will, therefore, make application to the Legislature for such additional sum as will supply the existing deficiency and enable them to erect some structures that experience shows are required for the public convenience.

The building of the exterior inclosure, including the gateways, will necessarily be delayed until further provision of money is made. The total length of wall, exclusive of gateways, and of such portions as will at present, from the precipitousness of the rock, require no inclosure, will be 29,025 feet, or about seven miles.

The Board respectfully asks the attention of your Honorable Body to the established grade of the Eighth avenue, from Eighty-third to Ninetieth street; it is believed that a grade on a main avenue of the city as objectionable as a glance shows this to be, cannot be permanent. This subject is alluded to for the reason that the elevation of

the Park wall is controlled by the grade of the avenue, and until it is fixed in such a manner as will be likely to render it permanent, it will not be best to construct the wall along this portion of the line.

The want of proper channels for the drainage of the Park has been the occasion of inconvenience from the time of the commencement of the work ; it has been no less so at the northern portion of the Park, inasmuch as the plan of the sewerage of the surrounding district is not, it is believed, yet fully determined.

Your Honorable Body has, during the past year, provided the requisite ordinance for a sewer in Seventy-second street, from the Fifth avenue to the East river ; and for a sewer in One Hundred and Tenth street, from a point west of the Eighth avenue toward the East river. Neither of these works has yet been commenced. The first-mentioned was authorized in the year 1863 by both Boards of the Common Council, but failed to receive the approval of the Mayor of the city, as alluded to in a previous report of the Board.

By an act of the Legislature of the State, at its session of 1864, Manhattan square, a piece of ground belonging to the city, situated between Seventy-seventh and Eighty-first street and Eighth and Ninth avenues, containing about nineteen acres, was placed under the control and management of the Commissioners of the Central Park, and it was made the duty of the Board to inclose, lay out, grade, regulate, drain, and improve the same. Inasmuch as no fund was provided by the act from which the cost of this work could be defrayed¹, the Board has taken no measures

to carry the provisions of the act into effect other than the initiation of surveys and the notification of removal to persons residing on the ground. The drainage and improvement of this and the low grounds in the immediate vicinity, now covered with water and mud, will add much to the salubrity of the neighborhood.

At the same session the Legislature provided for the widening and improving Seventh avenue, from the Park to Harlem river. Fulfilling the requirement of the act, the Commissioners of the Central Park, on the 12th of May, 1864, authorized application to be made to the Supreme Court for the appointment of Commissioners for the opening and widening of the said avenue, Messrs. John Anderson, Shepherd Knapp, and Charles A. Lamont were, on the 27th day of July, appointed such Commissioners. They have yet made no report; until proceedings of these Commissioners are complete the Board will be unable to take the requisite measures to carry on this improvement, so desirable in itself, and so essential to connect the Park with the large improvements contemplated at the north end of the island, which, if carried into execution, will, by the opening of agreeable avenues for travel, more fully develop the highly picturesque features of the island scenery, give access to the magnificent public and private edifices that are located in the more rural part of the city, and render this metropolis far in advance of any city on either continent in the extent and interest of its varied suburban drives. Generally the public works that have heretofore been carried out on this island, and in the State and nation, have been conceived on too limited and narrow a scale.

Wealth and population have always outstripped and demonstrated the inadequacy of the improvements intended for their accommodation. There is to-day within seven miles of the Park a population of a million and a half of people.

If the past is to be taken as a guide for the future, the year 1880, but fifteen years hence, will find a population of from two and a half to three million on the same area.

Projects that will subserve the health, comfort, amusement, and safety of the population that is to occupy this area are not unworthy the attention of the highest abilities, and should be up to the measure of the future magnificence of the great city they are to adorn.

In this connection it should not be forgotten that with all the facilities that Railroads are to furnish for the transportation of people on this island, the waters that surround it are to be more and more crowded with the fleets of commerce and with the necessary craft for conveying passengers along its whole length ; access to the Park from at least four points on the North and East rivers where passage-boats can conveniently land should be kept clean and inviting, and made agreeable and somewhat in harmony with the objects of the Park.

*The Assessed Value of the three Wards surrounding the Park,
for nine years, is as follows :*

WARD.	1856.	1857.	1858.	1859.	1860.
Twelfth.....	\$8,149,269	\$8,134,013	\$8,476,890	\$10,062,775	\$11,857,114

Twenty-second.....	17,666,896	18,041,857	18,281,222	18,756,276
TOTAL.....	\$47,107,333	\$49,045,379	\$51,419,499	\$54,712,458
Showing a total increased valuation on the three Wards, from 1856 to 1864, of				\$28,282,898

The rate of tax for the year 1864 is 2.16,
yielding, on the increased valuation, an
increased tax of..... \$610,310 49

The total expenditures for construction,
from May 1, 1857, to January 1,
1865, is..... 4,368,136 50

The cost of the land of the Park to the
city, is..... 4,815,671 60

Total cost of Park up to this time.....\$9,183,808 10

Total increased tax in three Wards.....	\$610,910 49
The annual interest on the cost of the land and im- provement of the Park, up to this time at six per cent.	\$551,028 49
Deduct one per cent. on \$399,300 of the above stock, issued at five per cent.	3,993 00
	<hr/> 555,021 49 <hr/>

Excess of increased tax, in three Wards, over interest on cost of land and im- provements.....	\$55,889 00
	<hr/>

The Commissioners of the Park are gratified to be able to state that the number of visitors to the Park continues to increase with each year.

Allowing an average of three persons to each vehicle passing into the Park, the following will show approximately the number of persons who have entered the Park for the past three years:

1862.....	4,195,593
1863.....	4,327,409
1864.....	5,740,079

The number for the year 1864 being not much less than six million.

The following Table gives the number of Visitors at the Park during each month in the year for the past four years.

Months.	1861.			1862.			1863.			1864.

The hour from 3 to 4 P. M. shows the largest number of pedestrians entering the Park for the whole year, but during the months of July, August, and September, a larger number of pedestrians entered between 4 and 5 P. M.

The number of equestrians and vehicles entering the Park is the largest between 4 and 5 P. M. In the months of June, July, and August, the greatest number enters at a later hour.

Citizens and strangers appreciate the ample and increasing attractions of this common pleasure ground.

The foliage becoming dense with the lapse of time constantly presents new and more striking effects. The planting has been done in areas as the ground was prepared; upon some portions, consequently, the growth gives evidence of more maturity than upon others. Already in some parts of the Park sufficient development to readily lead the imagination to realize, in some measure, beauties which the hand of nature will perfect in her own good time. It is from the fields and the flowers, the festooning of the climbing vine, the many-shaped and many-colored drapery of the forest and from the green carpeting of the lawn, that the most refined gratifications are derived. These, to the lover of nature, are always sources of pure enjoyment, and in their perfect development afford pleasure to vast numbers, in modes to which it will be difficult to take exception.

If other countries excel in the magnitude of the products of the animal kingdom, by general consent naturalists accord to our own continent marked superiority of vegetable life. Its trees are peculiarly numerous and ma-

estic, its fields luxuriant and prolific, its flowers brilliant and varied. It seems appropriate, then, that this city should in its chief work endeavor to mark and emphasize this characteristic of the country, from every river, plain, and mountain side of whose broad latitudes are derived the bounteous supports of its present growth and the well-founded promises of its future greatness. So far as is consistent with the convenient use of the grounds, vegetation should hold the first place of distinction; it is the work of nature, invulnerable to criticism, accepted by all, as well the cultivated as the ignorant; and affords a limitless field for interesting observation and instruction.

There is not only fitness in this idea, but there is safety. All art-work is the subject of animadversion; much of it sinks beneath observation; it is the fortune of but very little of it to escape wide censure, less of it finds permanent acceptance. Such as finds a place in the Park in answer to the demands of convenience and pleasure should therefore be subordinate to its recognized natural features and in harmony with them, not impertinently thrusting itself into conspicuous notice, but fitly fulfilling the purposes for which it is admitted. Art as the follower and student of nature is dignified; in so high a service there is scope and range enough to meet the requirements of the loftiest genius. Neither variety in design nor poverty in detail are wanting in the school in which nature is the exemplar; architecture and all the kindred arts that are brought into use on the Park, rejecting all symbolisms of classic and pagan mythology as things of a past civilization, and leaving out the petrified emblems of exploded faiths, should be submissive to the predominance of nature and illustrate the purer faith of

our age. To the extent that is consistent with the enjoyment of its advantages by the greatest number of those who seek recreation within its boundaries, the Commissioners of the Park will endeavour to accommodate and encourage the more organized and active exercises, sports, and amusements to which allusion was made in a previous report.

Experience will best indicate the measure to which these amusements are admissible.

On the 28th day of April a portion of one of the regiments of the First Division of the National Guard, in contravention of the ordinances of the Board, and in opposition to the remonstrances of the keepers at the entrance and on the way, entered the Park and moved by the carriage-way to the Green, and there, with men and horses, proceeded to parade and drill upon the lawn. This act afforded an example for another regiment to undertake a parade at the same locality. The exigencies of the Park generally requiring but a small force of keepers, no provision is made to repel the unexpected advance of a considerable body of armed men. Remonstrance with the officers of the regiment was all the opposition that could be effectually presented at the time.

These proceedings on the part of these regiments did not meet the approbation of many of the most efficient officers and men of the First Division of the National Guard, who, while they felt that provision should be made of a parade ground in the City, so that their commands should be relieved of the expense and inconvenience of leaving the city for their annual regimental drills and

parades, yet were unwilling to take any but proper measures to supply that necessity.

Deeming their organizations especially provided for the preservation and maintenance of order, they were averse from being identified with or responsible for any acts of disorder, whether resulting from misapprehension or design.

The attention of Brigadier-General Josiah T. Miller, Inspector-General of the State, having been called to the necessity of grounds for the accommodation of parades of the military of the city, and of other portions of the State, uses in his report this language :

"Parade grounds are also essential, and the State should provide one for each division, and particularly for the first division. This parade ground in the first division ought not to be in the Central Park. Military occupancy and exercise are inconsistent with the rules adopted for the government of the Park, as well as with the objects for which the Park itself was originally designed. Grounds equally convenient for military purposes might be obtained in the immediate vicinity of the Park, the occupancy of which by the military would accommodate officers and privates, and at the same time increase the enjoyment of the general public, always fond of military spectacles."

The subject was soon brought before your Honorable Body, and on the coming in of the report of a Joint Committee of the Board of Aldermen and Board of Councilmen, who had given the subject full examination, the following resolution was adopted :

"*Resolved*, That that part of the square known as Hamilton square, lying between the Third and Fourth avenues, and Sixty-sixth and Sixty-ninth streets, be, and is hereby, set apart and appropriated for the use of the First Division New York State National Guard, as a parade ground."

The Common Council having thus made provision for the admitted requirements of the military of the city, all that remains is to have the grounds put in order for their early accommodation.

The Commissioners of the Park take this occasion to express their appreciation of the considerate manner with which the officers and members of the National Guard generally met this whole subject, and the prompt disapprobation expressed by them of a course of action on the part of officers of two regiments of the city calculated to weaken the respect for order and to initiate practices tending to materially interfere with the public enjoyment of the Park.

On the 11th day of January last a resolution was passed by the Honorable the Board of Aldermen to the following effect :

"Resolved, That the Commissioners of the Central Park be, and they are hereby, directed to inform this Board by what authority they have set apart one of the ponds on the Park for the exclusive use of a skating club, to the exclusion of the public at large."

As the resolution had evidently been introduced under some misapprehension, the Board readily furnished the information desired in a communication, of which the following is a copy :

OFFICE OF THE BOARD OF COMMISSIONERS }
OF THE CENTRAL PARK, }
NEW YORK, February 17, 1864.

To the Honorable the Board of Aldermen :

The Commissioners of the Central Park have received a resolution purporting to have been adopted by your Honorable Body expressing a desire to know "by what authority they have set apart one of the

ponds on the Park for the exclusive use of a skating club, to the exclusion of the public at large."

As the language of the resolution indicates that the Board of Aldermen is under some misapprehension as to the real nature of the proceedings alluded to, it is proper to say that the Commissioners have simply endeavored to regulate and organize the public uses of the skating ponds so as best to subserve the convenience and the pleasure of all resorting to them. Before the season opened, on the application of an organization formed for the purpose of advancing the art of skating, composed of citizens of respectability, it was thought best as an experiment to permit them to use a small unfrequented sheet of ice, remote from the main skating pond, to which few ever resorted, on condition that they should conform to the regulations of the Commissioners of the Park—at their own expense remove the snow from the ice, and keep it in order, an arrangement not exclusive of similar organizations.

The effect of this would naturally be to draw many of the best skaters from the main lakes to this small pond, which is so situated as to afford spectators on its banks a favorable opportunity to see the movements of those upon the ice, and thus relieve the larger surfaces of ice—bring the smaller one into active use—afford amusement to great numbers who desire to see the evolutions of expert skaters, and at the same time offer some opportunity for the cultivation of the art; in other words, by this means enlarge and improve the public uses of the ice and not impair or abridge them.

The arrangements seemed to work very satisfactorily. After two or three days' skating, and some weeks before the adoption of the above resolution, it appearing that increased numbers were attracted to this lake, it was opened and has since remained open to all who desire its use, as well to those who belong to skating organizations as those who do not, under the same rules provided for the preservation of the ice, and for the maintenance of order at the other lakes of the Park.

From the outset of their organization, the Commissioners of the Park have made it a cardinal principle of their action to assure to the public, without respect to class or degree, the fullest and freest opportunity for the use and enjoyment of the Park that is consistent with its proper conservation and with the maintenance of order, and all

allegations of favoritism or privilege designed for the exclusive benefit of special classes or individuals, are without any foundation.

Respectfully submitted on behalf of the Board of Commissioners of the Central Park.

ANDW. H. GREEN,

Comptroller of the Park.

The interest in the favorite exercise continues unabated; the Board will not relax exertions to provide conveniences for the large numbers that find in it enjoyment, as well as for those who are spectators. The facilities for skating could be increased if those who do not skate were willing, when the ice is crowded, to observe the participators from the shore.

By the subjoined table, showing the days on which there was skating on the lakes, during the past six years, it will appear that the number of days varies very considerably, and that it is not probable that in our climate any winter will be so prolonged as to exhaust the general ardor with which opportunities for this invigorating exercise are welcomed.

The music held on Saturdays has become a fixed and regularly-expected popular entertainment.

The subjoined table shows the days on which musical entertainments were given at the Park, for the past six years.

1859.	1860.	1861.	1862.	1863.	1864.	
July	9 August	25 August	10 June	7 May	30 June	4

TOTAL NUMBER OF MUSIC DAYS.

1859.....	10
1860.....	9
1861.....	10
1862.....	21
1863.....	20
1864.....	26

The cost of these entertainments in 1864 was \$3,733. Of this the Third, Sixth, and Central Park North and East River Railroad Companies contributed \$1,834. The Seventh and Eighth Avenue Railroad Companies declined to make any contribution toward defraying the expense, though by means of them their receipts were largely increased. It is practicable to provide seats or standing room within convenient distances for hearing but for a very small proportion of the great numbers that attend. There seems to be no mode of accommodating the public otherwise than by the establishment of another band at some other locality on the Park. It is the intention of the Board to maintain a high standard in the character of the music of these occasions. New compositions of native and foreign authors adapted to out-of-door performance are promptly obtained, and in the programmes are interspersed national airs from the music of other countries, that the stranger who may be present, catching the sound of a familiar air, may feel that in this city he finds a welcome.

The subjoined table shows the statistics of the Boat service for 1864.

WEEKS.		CALL BOATS.	PASSAGE BOATS.
For the week ending May	7th.....	21½	58
"	" 14th.....	119½	198
"	" 21st.....	210	493½

TOTAL.....		18,162½	35,784½

The total revenue derived from these passengers by Mr. Dick was..... \$6,208 85

The total expense of conducting the boats.. 5,228 50

As compared with the year 1863, there appears an increase of 21,883 persons carried.

A very general disposition prevails among those who resort to the Park to conform to the prescribed regulations. Minor transgressions are committed through thoughtlessness and a want of familiarity with the rules of the Park.

The larger portion of arrests are for fast driving.

The subjoined table shows the number of arrests on the Park for the past two years :

	1863.	1864.
In January	18	2
" February	5	6
" March	5	10
" April	8	7
" May	13	30
" June	11	8
" July	3	18
" August	1	17
" September	5	13
" October	5	7
" November	7	6
" December	5	6
Total	<u>86</u>	<u>130</u>

These arrests were for the following causes :

	1863.	1864.
Fast driving	47	63
Fast riding	1	5
Breaking shrubs and flowers	9	2
Assault and battery	1	6
Thieving	1	6
Disorderly conduct	23	48
Other offenses	4	0
Total	<u>86</u>	<u>130</u>

The penalties imposed upon those arrested and taken before the magistrate were as follows :

Fined fifteen dollars and less, each	63
Bound over to keep the peace	6
Sent to the House of Correction or Asylum	5
Discharged with reprimand or otherwise	56
Total	<u>130</u>

Five additional urinals have been provided. The number of conveniences of this character will be increased from time to time as the means at the disposal of the Board will admit.

In the progress of the work, the principal portion of the trees in the nursery at the great Hill have been removed and planted; another nursery has been established to the east of the Mount St. Vincent building—a place well sheltered and very favorable for the early development of trees, shrubs, and flowers. From the growth of this nursery it is hoped hereafter the most of the shrubs required for planting will be procured.

By consent of the Board having the Reservoirs in charge, openings have been made in the inclosing fence of the old Croton Reservoir, at points up to which the Park walks were already laid; the grounds within the Reservoir inclosure now form a part of the system of walks that conduct the pedestrian from one end of the Park to the other. The utility of the Reservoirs render them features of interest. The water surface of the grand Reservoir is about ninety-six acres; the depth of water when full about thirty-eight feet, and its capacity more than 1,000,000,000 New York gallons.

The walk about this Reservoir, also forming a connecting link in the Park system, having a surface of broken stone not agreeable to pedestrians, has not been much used.

It is understood that the Croton Aqueduct Board intend in the coming year to complete this surface in such manner as will render it more acceptable to the numbers that

desire to view from it the great storehouse of water for the city.

In the spring of 1863 fourteen European sparrows, *Moineau* of France, were let loose on the Park ; they have increased in number and are quite tame, and will probably become domesticated. In Europe they are now much valued for their capacity for consuming worms, though formerly in some districts they were killed in large numbers, on the ground that they were destructive to the grain fields.

The small refreshment house, or Casino, situated eastwardly from the Mall, was opened in the early part of the year ; it has afforded convenient opportunity for persons visiting the Park to obtain light refreshments in a well-ordered and cleanly place. It cannot, however, be well confined to the purpose which it was intended to answer, to wit : that of a house in which to serve light refreshments for ladies and children, until the other buildings contemplated for other kinds of refreshment on a more extended scale are erected ; when these are all complete, a proper classification of refreshments to be obtained at each will operate, it is believed, to the advantage of the public ; until the whole plan is carried out, the Casino will serve to supply to some extent the present inadequacy of accommodations of this character. The site selected for the principal house in which more substantial refreshments are to be provided is on an eminence overlooking the Lake and the Ramble from the west. At this site is sufficient space for a building of adequate dimensions, and the requisite outbuildings convenient to the drive and not too remote from the Terrace, Mall, and Ramble.

The various movements on the part of individuals and societies toward the establishment of botanical and zoological gardens do not yet appear to have resulted in any practical measures at all adequate to the accomplishment of the objects embraced within a liberal apprehension of the scope of institutions of this character.

There is no doubt expressed of the propriety of founding such establishments in the city. Their scientific utility and their general popular attractions are conceded. In the Old World they are maintained in cities of the second and third class.

The Board has deferred any general measures toward their establishment till the subject was more widely discussed, and until the collections they already have on hand demand greater care and more fitting accommodations than the means at the disposal of the Board have enabled it yet to bestow upon them.

The collection now at the Park is composed mainly from donations, and comprises at the date of this report the following:

MAMMALIA.

Order: QUADRUMANA.

Family: *Simia*.

Genus: *Circopithecus*. 3 specimens. Monkey of the Old World.

Family: *Cebidus*.

Genus: *Cebus*. 2 specimens; American Monkey.

Order : CARNARIA.

Family : *Carnivora*. Tribe : *Plantigrada*.

Genus : *Ursus*. 2 specimens of *Ursus Americanus*. 2 varieties : 1 Florida Black Bear ; 1 Minnesota Black Bear.

Genus : *Potos*. 1 Kinkajou, or Mica Lion. *Potos candivolulus*.

Genus : *Viverra*. 3 loati-mundis, or Ant-bears. *Viverra narica*.

Tribe : *Digitegrada*.

Genus : *Canus*. 5 Prairie Wolves, Illinois. *Canus lupis*.
1 Virginian Silver-gray Fox. *Canus cineres-argentatus*

Order : MARSUPIALIA.

Tribe : *Didelphis*. 1 Opossum. *Didelphis Virginiana*.

Order : RODENTIA.

Genus : *Sciurus* ; sub-genus, *Sciurus*. 3 species. 1 Fox Squirrel, *Sciurus vulpinus* ; 4 Gray Squirrels, *Sciurus Carolinensis* ; 1 Costa-Rica Squirrel.

Genus : *Hydromys*. 1 Coypu, or Nutria, *Hydromys Coypou*.

Genus : *Hystrix*. 1 Canadian Porcupine, *Hystrix Canadensis*.

Genus : *Lepus*. 2 species. 1 English Rabbit ; 1 American Hare.

Genus : *Cavia*. 2 Guinea Pigs.

Order : PACHYDERMATA.

Family : *Pachydermata ordinaria*.

Genus : *Sus*. 1 Peccary, *Sus Tajassu*.

Order : RUMINANTIA.

Genus : *Cervus*. 2 species. '13 Common Deer, *Cervus Virginianus* ; 1 Elk, *Cervus Alces*.

Genus : *Ovis*. 2 species. 2 Broad-tail African Sheep ; 61 Southdown Sheep.

Genus : *Bos*. 1 Bison, or American Buffalo, Missouri. *Bos Americanus*.

AVES.

Order : RAPACIÆ.

Family : "DIURNAL BIRDS." Tribe, *Falco*. Section : "IGNOBLE BIRDS OF PREY."

Genus : *Aquila*. 14 Eagles, American species.

Genus : *Astur*. 4 Hawks.

Family : "NOCTURNAL BIRDS."

Genus : *Strix*. Sub-genus : *Strix*. 2 American "Little Owls." *Strix passerina*.

Order : PASSERINÆ.

Family : *Coniostres*.

Genus : *Fringilla*. 60 German Sparrows.

Genus : *Corvus*. Sub-genus : *Garrulus*. 2 American Blue Jays, *Corvus Cristatus*.

Order : SCANSORIÆ.

Genus : *Psittacus*. Sub-genus : *Ara*. 1 specimen ; Central America. Sub-genus : "Cock-
atoo." 1 specimen. Sub-genus :
"Parroquet proper." 8 specimens ;
2 species ; 6 Porto Rico ; 2 Central
America.

Order: GALLINACÆ.

Genus: *Pavo*. 42 Pea-fowl.

Genus: *Numida*. 9 Guinea-fowl.

Genus: *Phasianus*. Sub-genus: *Gallus*. 6 Spanish Bantams.

Genus: *Perdix*. 13 specimens. 13 "American Quail."

Genus: *Tetido*. 3 specimens. 3 "American Partridges."

Genus: *Columba*. About 170 specimens, including 5 Cuban Doves (2 varieties), 2 Chinese Doves, Ring Doves, Pouters, Tumblers, Carriers, Nuns, Swallow-Pigeons, Ruffle-necks, Bantam-Pigeons, &c., &c.

Genus: *Crax*. 4 Central American Curassows. *Crax Alecta*.

Genus: *Penelope*. 4 Central American Penelopes. *Penelope Cristata*.

Order: GRALLATORIÆ.

Family: PRESSIROSTRES.

Genus: *Charadrius*. 1 Central American Plover.

Family: CULTRIROSTRES.

Tribe I. Genus: *Grus*. 1 Cuban Trumpeter Crane.

Tribe II. Genus: *Ardea*. 2 species. 1 Costa-Rica Tiger Bittern; 1 Bittern.

Tribe III.

Genus: *Ciconia*. 2 German Storks.

Genus: *Platalea*. 1 Spoonbill.

Family: PHŒNICOPTERUS. 1 Flamingo. *Phœnicopterus ruber*.

Order : PALMIPEDES.

Family: TOTIPALMATÆ.

Genus: *Pelecanus*. 1 Pelican.

Family: LAMELLIROSTRES.

Genus: *Anas*. Sub-genus: *Cygnus*. 3 species. 59

White European Swan, 2 White American Swan, 1 Black Austrian Swan.

Cygnus Atratus Sub-genus: *Anser*.

2 species. 4 Black-headed Poland

Geese, 12 Chinese Swan-geese, *Cygnop-**sis sinensis*. 2 varieties, 8 white and 4brown. Sub-genus: *Anas*. 5 species.

5 Yagaza, or Poto-Rico Wild Duck, 2

Central America Whistling Duck *dendro-**cygna antemalis*. 9 Brazilian Ducks, 35

Aylsbury Ducks, 4 Muscovy Ducks,

Cairina moschata. 5 miscellaneous.

REPTILIA.

Order: CHELONIA.

Genus: *Testudo*. 2 species. 2 South American Tortoises. *Testudo Marginata*. 1 Galapagos Tortoise.Genus: *Emys*. 2 Snapping Turtles, *Chelydra serpentina*.

Order: OPHIDIA.

Family: *Serpentia*. Tribe: *Serpens* "*proper*." Section: *non-venomous*.Genus: *Boa*. 1 Anaconda.

PISCES.

Order MALACOPTERYGII ABDOMINALES.

Family : CIPRINIDÆ.

Genus : *Ciprinus*. Sub-genus : *Ciprinus*. Gold Fish.

The mortality among the animals has been apparently large, and is in a considerable degree owing to a want of care in their transportation to the Park. They frequently arrive in so feeble a condition, from want of food and proper attention on their way, as to render it impossible to restore them. On their arrival they are properly cared for, and they become at once objects of amusement and interest.

Their classification and arrangement will be hereafter the subject of more especial attention, and the Board hopes for additions to its collections from those interested in the subject at home and abroad. When the necessary means are at its disposal, efforts of the Board in this department, and in that of Botany, will first be directed to the formation of a complete collection of the animals and plants of the American continent. A distinguished English writer on the subject of these collections, several years since, says :

“ There are doubtless hundreds of species and varieties of trees and shrubs in North America that have never yet been seen in Europe.”

* * * * *

“ One of the first steps toward the equalization of the plants of different regions of similar capacities for growing such plants is to determine with something like precision what the plants of each region are. This can only be done by assembling living specimens of all of them, or of such a class of them as it may be desirable to equalize, in one garden, and cultivating them there for some time, so as to determine the species and varieties.” * * * *

"It would doubtless contribute to the spread all over the world of the trees and shrubs of North America if one part of them could be seen in a grand natural garden at New York and another in a garden or arboretum at Charleston ; or if the whole could be assembled in one grand park and pleasure ground at Washington."

The allowance by law for the maintenance of the Park is a sum not exceeding \$150,000 per annum.

The estimates for the past five years have been as follows :

For the year 1860 (eight months and twelve	
days)	\$80,000 00
“ 1861.....	114,000 00
“ 1862.....	118,841 75
“ 1863.....	147,341 75
“ 1864.....	150,000 00

In the past two years, additional portions of the Park have been opened for use. This fact with the increase of prices of labor and materials has rendered the moneys derived from these estimates inadequate to meet the expenses of maintenance.

An appendix (A) annexed to this report is a statement in detail of the condition of the gifts, devises, or bequests made to the Board for the purpose of embellishing or ornamenting the Park, and of the names of the persons by whom the same are so given, devised, or bequeathed.

The value of these gifts is expressed in the generous disposition which has prompted them, and in their capacity for public gratification, rather than in any money estimate. In some instances these donations are of considerable pe-

cuniary value, and the Board expresses its cordial acknowledgment to those donors, to whom the public are indebted for very much of instruction and amusement, as well as to those express and transportation companies that have kindly forwarded donations free of cost.

The Treasurer's account herewith submitted shows the expenditures of the past year in detail. It is accompanied by a summary of receipts and expenditures of the Board since its organization.

Dated NEW YORK, December 31, 1864.

Respectfully submitted,

HENRY G. STEBBINS,

President of the Board of

Commissioners of the Central Park.

ANDW. H. GREEN,

Comptroller of the Park.

APPENDIX A.

Statement in detail of the condition of the gifts, devises, or bequests for the purpose of embellishing or ornamenting the Park, and of the names of the persons by whom the same are so given, devised, or bequeathed.

OCTOBER 18, 1860.

Eighty-seven Casts, in Plaster, of the Works of the late THOMAS CRAWFORD, presented by Mrs. LOUISA W. CRAWFORD, consisting of the following Statues, Bas-reliefs, and Sketches :

STATUES.

1. Orpheus, life size.
2. Apollo and Diana, third life size.
3. Cupid, life size.
4. Genius of Mirth, life size.
5. Pilgrim Princess, third life size.
6. Boy playing marbles, life size.
7. Flora, life size.
8. Beethoven, heroic.
9. The Mechanic, little larger than life size.
10. The Schoolmaster, little larger than life size.
11. The Schoolboy, little larger than life size.
12. The Merchant, little larger than life size.
13. The Soldier, little larger than life size.
14. The Woodsman, little larger than life size.
15. Indian Hunter, little larger than life size.
16. Indian Chief, little larger than life size.
17. Indian Woman, little larger than life size.
18. America.
19. Indian Grave.
20. Hebe, life size.
21. Hebe and Ganymede, life size.

22. Mercury and Psyche, third life size.
23. Daughter of Herodias, life size.
24. Dancing Jenny, life size.
25. Boy, with a Broken Tambourine, life size.
26. Aurora, two-thirds life size.
27. Tenants, life size.
28. The Peri, life size.
29. Hunting Boy, with Hound, life size.
30. Raphael, one-third life size.
31. James Otis, heroic.
32. Patrick Henry, colossal.
33. Thomas Jefferson, colossal.
34. Children in the Wood, life size.
35. Dying Indian Girl, two-thirds life size.

BAS-RELIEFS.

1. Woman of Samaria.
- 2, 3. Two Monumental Groups.
4. Origin of Drawing.
5. Hercules and Diana.
6. Cupid, stringing his bow with flowers.
7. Apollo and Pegasus.
8. Muse, with the Lyre.
9. Anacreon and Nymph.
10. Fawn and Goat.
11. Muse and Cupid.
- 12, 13, 14. Three bas-reliefs of a Nymph and Satyr.
15. Huntress.
16. Repose in Egypt.
17. Justice.
- 18, 19. Two niches for the monument of Mr. Binney.
- 20, 21. Two bas-reliefs for the Washington Monument, Va.
22. Christ blessing little children.

SKETCHES.

Eve, with Cain and Abel.
 Eve listening to the Tempter.
 Two sketches of the Flora.
 Thomas Jefferson.
 Washington Monument, Va.
 Equestrian of Washington.
 Equestrian of Washington, with Liberty.
 Freedom, for the U. S. A. Capitol.
 Dancing Jenny.
 Aurora.
 Justice and History, for the U. S. A. Capitol.
 Jacob wrestling with the Angel.
 Children in the Wood.
 Washington.
 Beethoven.
 James Otis.
 Patrick Henry.
 Mason.
 Two sketches of Sappho.
 Rebecca.
 Daughter of Herodias.
 Dying Indian Woman.
 The Tenants.
 Boy, with broken Tambourine.
 Indian Chief.
 Raphael.
 Spring and Autumn.
 Burd Monument.
 Jupiter and Psyche.
 The Pediment for the U. S. A. Capitol.

1860.

June 25. The statue of Flora, in marble, by Crawford, presented by R. K. Haight, Esq.

(This statue has not as yet been delivered on the Park.)

1863.

Feb. 28. One Bronze Fountain, Boy and Swan, presented by Thomas Richardson, Esq.

May 18. One group of Bronze Eagles, presented by G. W. Burnham, Esq.

1864.

July 14. One Bronze Statue of Eve, presented by Marshall O. Roberts, Esq.

July 14. One Stone Idol, presented by Capt. John M. Dow.

Aug. 9. One Stone Idol, presented by Hon. E. O. Crosby.

1862.

Sept. 20. Plan and model for laying out the Park, presented by Mrs. Susan M. Parish.

Nov. 22. One Venetian Gondola, presented by John A. C. Gray, Esq.

1864.

Dec. 2. One Topographical Map of the Central Park, presented by H. F. Krause, Esq.

Feb. 23. One Rustic Settee, presented by officers of 132d Regiment N. Y. V.

Nov. 17. One fine specimen of Amethyst, presented by John McIntyre, Esq.

The following prepared specimens have been received :

1862.

Feb. 6. Ox "Gen. Scott," presented by Wm. Laylor, Esq.

Oct. 24. Ox "Constitution," presented by Bryan Lawrence, Esq.

" " Two Sheep, presented by Bryan Lawrence, Esq.

1864.

Oct. 22. Two California Hares, presented by James Stokes,
Jr., Esq.

1863.

March 18. One Calf, presented by Wm. Laylor, Esq.

The following-named PLANTS have been received :

Ten Betula Pumila, (seven D.)

Fifty Ledum Latifolium.

Fifty Andromeda Polifolia,

Presented by Prof. George Thurber.

1864.

Feb. 20. One lot of Laurel from Lookout Mountain, (D.)
presented by Major-Gen. Danl. Butterfield.

May 12. One lot Pitcher Plant, (D.) presented by John
M. Reed, Esq.

Nov. 28. One Cactus Plant, presented by F. C. Bescho-
mann, Esq.

The following-named packages of SEEDS have been received :

Giant Cedar of California, presented by Fred.
Law Olmsted, Esq.

Nelumbium Luteum, presented by C. E. White,
head, Esq.

Pawpaw Seed, (D.) presented by W. F. Drake,
M. D.

Convolvulus, (D.) presented by John G. Crosby,
Esq.

Rosin Plant, presented by Lewis Masquerier, Esq.

The following ANIMALS have also been presented.

1860.

May 21. Twelve White Swans, presented by the Senate
of the City of Hamburg.

Oct. 18. Twenty-four White Swans, presented by the
Worshipful Company of Vintners, London.

1862.

Oct. 18. Twenty-six White Swans, presented by the
Worshipful Company of Dyers, London.

Nov. 1. Ten White Swans, presented by the Senate of
the City of Hamburg.

(Of these seventy-two swans, thirty-one are dead.)

Two Trumpet Cranes, (D.) presented by G.
Granville White, Esq.

One Peacock, presented by G. Granville White,
Esq.

One American Eagle, (D.) presented by Albert
S. Joslyn, Esq.

One Deer, presented by Joseph Conrad, Esq.

One Deer.

Gold Fish, presented by William D. Murphy,
Esq.

Two Canadian Geese, (D.) presented by Charles
M. Graham, Esq.

1862.

Feb. 8. One young Swan, presented by Captain Grum-
ley.

May 8. One Deer, (D.) presented by George William
Curtis, Esq.

June 14. One Doe, (D.) presented by Edward E. Mitch-
ell, Esq.

“ 21. Two Poland Geese, presented by Thomas Rich-
ardson, Esq.

“ “ Five Aylesbury Ducks, (D.) presented by
Thomas Richardson, Esq.

“ “ One Gynerium Argenteum, presented by Thomas
Richardson, Esq.

July 29. One Raccoon, (D.) presented by J. A. Pilat,
Esq.

Aug 19. Two Pelicans, (D.) presented by Col. Thorpe.

- Sept. 1. One Australian Cockatoo, presented by Robert Lewin, Esq.
- “ 24. One Monkey, presented by Frank Towle, Esq.
- “ “ One Black Eagle, presented by Isaac B. Caryl, Esq.

DOCUMENT No. 9.

BOARD OF ALDERMEN,

APRIL 4, 1865.

The following communication from the Comptroller, transmitting his First Quarterly Report of the Auditor of Accounts, being report in detail of all warrants drawn on the City Chamberlain for the quarter ending March 31, 1865, was received, laid on the table, and the usual number of copies directed to be printed in Document form.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
COMPTROLLER'S OFFICE, }

April 3, 1865.

To the Common Council :

GENTLEMEN—I transmit herewith the usual Quarterly Report of claims against the Corporation, audited and paid during the first quarter of the year, ending March 31, 1865.

Respectfully submitted,

MATTHEW T. BRENNAN,
Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
 AUDITING BUREAU, }
 OFFICE OF AUDITOR OF ACCOUNTS,
 Hall of Records, Second Floor,

March 31, 1865.

SIR—In compliance with the charter and ordinances, I respectfully submit the annexed detail of all accounts examined and audited by me on City and Trust Accounts from January 1 to March 31. 1865, inclusive, and for which warrants have been drawn upon the Chamberlain.

I remain your obedient servant,

WM. A. HERRING,

Auditor of Accounts.

MATTHEW T. BRENNAN, Esq.,
Comptroller.

COMMUNICATION

FROM THE

STREET COMMISSIONER,

TRANSMITTING HIS

FIRST QUARTERLY REPORT FOR THE YEAR 1865;

BEING THE

Business of the Street Department

UP TO AND INCLUDING

MARCH 31ST, 1865.

BOARD OF ALDERMEN,

April 10, 1865.

DOCUMENT No. 11.

NEW YORK:

EDMUND JONES & CO., PRINTERS TO THE CORPORATION.

No. 26 JOHN STREET.

1865.

DOCUMENT No. 11.

BOARD OF ALDERMEN,

APRIL 10, 1865.

The following communication from the Street Commissioner, submitting his First Quarterly Report for the year 1865, being business of the Street Department up to and including March 31, 1865, was received, laid on the table, and the usual number of copies ordered to be printed in document form.

D. T. VALENTINE,

Clerk.

STREET COMMISSIONER'S OFFICE, }
NEW YORK, March 31, 1865. }

To the Honorable the Common Council :

GENTLEMEN—In compliance with the Charter and ordinances of the Common Council, I have the honor to re-

port of the state of this Department, and the public business connected therewith, for the quarter ending this 31st day of March, 1865.

The last quarterly report made to your Honorable Bodies, on the 31st of December, 1864, was so replete with regard to all matters pertaining to the Street Department, as to its transactions and the mode of conducting its business, as also the condition of all work under advisement, or in progress, that but a brief statement of the expenditures and action had of the Bureau is deemed necessary, more especially as the appropriation for the year 1864, had been expended, and but little work other than that by contract has been done.

Requisitions have been drawn by this Department upon the Comptroller, for the quarter, amounting to the sum of one hundred and ninety-eight thousand one hundred and eighty-four dollars and forty-five cents, (\$198,184.45), of this amount, eighty-one thousand one hundred and fifteen dollars and forty-eight cents (\$81,115.48) has been drawn upon trust account, and will be reimbursed the city treasury by assessments upon the property benefited; leaving a balance of one hundred and seventeen thousand and sixty-eight dollars and ninety-seven cents (\$117,068.97), which has been drawn on city or tax appropriations.

In appendix A will be found a statement showing the balance of appropriation for the Street Department on hand January 1, 1865, amount of requisitions drawn upon the Comptroller by the Street Commissioner on each appropriation and account during the months of January, February, and March, respectively, as also the total amount for the first quarter of the present year, and the balance on hand of all appropriations appertaining to this Department on this day.

Appendix B shows in detail the amount charged to each object and purpose, the number and particulars of assessment lists delivered to the Collector of Assessments, amounts collected by him and paid to the City Chamberlain, amount of assessments returned uncollected, and transmitted to the Bureau of Arrears; and all matters under cognizance of the Bookkeeper of this Department.

Your Honorable Bodies are also most respectfully referred to the accompanying reports of the several superintendents of the Bureau connected with this Department, containing detailed statements of all public business transacted by them respectively during the quarter. The Superintendent of Street Improvements reports having drawn vouchers during the quarter, amounting to the

sum of.....	\$78,585 19
The Superintendent of Wharves.....	23,103 45
Carried forward.....	<u>\$101,688 64</u>

The Superintendent of Lands and Places..	373 25
The Superintendent of Roads.....	923 00
Chief Engineer of Fire Department.....	17,193 37

COLLECTION OF ASSESSMENTS.—On the 1st of January, there remained in the hands of the Collector, lists amounting to five hundred and seventy thousand eight hundred and twelve dollars and ninety-five cents, (\$570,812.95), which together with the amount of interest, one thousand one hundred and forty-eight dollars and eleven cents (\$1,148.11), collected on assessments and new lists, amounting to one hundred and eighty-two thousand and fifty-six dollars and ninety-five cents (\$182,056.95), delivered the Collector, leaves him charged with seven hundred and fifty-five thousand and seventeen dollars and ninety-one cents (\$754,017.91).

The Collector has been credited, however, with one hundred and ninety-six thousand two hundred and twenty-one dollars and thirty-four cents (\$196,221.34), paid the Chamberlain, collected; and forty-five thousand and ninety-two dollars and eighty-seven cents (\$45,092.87)

transmitted to the Clerk of Arrears, uncollected; the Collector, therefore, has in his hands, this day, for collection, assessment lists amounting to five hundred and twelve thousand seven hundred and three dollars and seventy cents (\$512,703.70).

Respectfully,

CHARLES G. CORNELL,

Street Commissioner.

APPENDIX A.

STATEMENT, showing the Balance of Appropriations for the Street Department on hand January 1st, 1865; Amount of Requisitions drawn on the Comptroller by the Street Commissioner for the Quarter ending March 31st, 1865; Amounts overdrawn by authority of Act of Legislature, passed March 3d, 1865, and showing the Balance available April 1st, 1865.

[E. & O. E.]

STREET DEPARTMENT, }
BUREAU OF WHARVES, PIERS, AND SLIPS. }

NEW YORK, March 31, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with instructions contained in your circular letter, I herewith transmit my first quarterly report for the year 1865 ; showing the business transactions of the Bureau, for the three months ending March 31st, 1865.

Statement "A" shows the available amounts unexpended at the commencement and ending of the quarter. The total amount of vouchers, the appropriations on which they were drawn, and the available balances at this date.

Statement "B" shows the amount of expenditures and application of the same for the quarter.

With great respect, I take this occasion to call your attention again to the dilapidated and dangerous condition of many of the Piers on the North and East rivers—and reiterate what I have said in most of my reports of the past year. In substance, that, the small amount appropriated to this Bureau, has been sufficient to cover only such work and repairs as may be classed as dangerous, leaving very little margin for more important repairs and new work, that, in my judgment, the interests of the city demands. I am firmly convinced that immediate and prompt action is required from those having authority to

stop the ruinous waste of property embodied in this class of work, believing that fifty, and in many cases one hundred per cent. is lost to the city for the want of a sufficient appropriation to warrant this department in making any suggestions for your consideration, further than the actual necessities of the day require.

I notice in the estimate of the Comptroller in his "Budget for 1865," he appropriates \$200,000 to this department—which sum in view of the interests of the city cannot possibly enable this department to keep the piers of the city in a satisfactory condition—and I am therefore at a very great loss to know on what basis of economy he views the subject, believing that my estimate of \$460,300 is actually and positively required.

Very respectfully, &c.

ROBERT EARL,

Superintendent of Wharves, Piers, and Slips.

STATEMENT "A."

ROBERT EARL,

Superintendent of Wharves, &c.

STREET DEPARTMENT, BUREAU OF ROADS, }
 NEW YORK, March 31, 1865. }

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—I hereby acknowledge the receipt of your Circular Letter bearing date the 15th instant, and in reply have the honor to report as to the public business performed by this Bureau during the quarter ending this 31st day of March, 1865.

In consequence of the small amount of appropriation remaining unexpended at the commencement of the year, and in the absence of any appropriation applicable to expenditures on roads and avenues, I have necessarily been obliged to curtail the operations of this Bureau to the performance of such work only as was actually necessary for the protection of life and property, amounting during the quarter to the sum of nine hundred and twenty-three dollars (\$923.00.)

In expectation of the appropriation for the year being soon made, I shall take the earliest opportunity of communicating with you as to the requirements of the public business intrusted to my charge.

Respectfully,

ISAAC EDWARDS,

Superintendent of Roads.

STREET DEPARTMENT, }
BUREAU OF LAMPS AND GAS, }

NEW YORK, March 31, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with the directions contained in your Circular Letter of the 13th instant, I herewith transmit my report of the work done, and expenditures incurred in this Bureau during the quarter ending this date.

In Exhibit A, you will find an abstract of all vouchers certified by me during the quarter; in Exhibit B, you will find a statement showing the amounts paid for gas, to public markets, &c., and for sundry purposes connected with the care and maintenance of the public lamps; and in Exhibit C, a statement of expenditures, as shown by the certified vouchers of this Bureau, showing an expenditure during the quarter of three thousand eight hundred and forty-six dollars and ninety-five cents (\$3,846.95), leaving a balance of fifty-five thousand and eighty-nine dollars and eighteen cents (\$55,089.18), against which no vouchers have been certified by the Superintendent of this Bureau. You will also find in this statement all the outstanding liabilities against the Bureau amounting to two hundred and fifty-six thousand four hundred and ninety-six dollars and fifty-six cents (\$256,496.56). The principal part of these liabilities as you will observe, were incurred for lighting the public lamps since September 1, 1864, and the amount is made up in accordance with the prices paid for the same work previous to that date; if the claims de-

manded by the gas companies, however, should be allowed the liabilities will amount to very nearly double the sum specified above. You will therefore see the importance of some arrangement being made between the gas companies and the city, by which the differences now existing may be settled on a satisfactory and just basis.

This is also necessary, because, until such is done, the public lamps cannot be kept in as good condition as they should be; there are now about fifty lamp-posts which have been broken down in various parts of the city, during the last five months; and, which I have not caused to be reset, as I have deemed it impolitic to send any orders to the gas companies to do work, lest, by so doing, it might be considered as recognizing the demands made by them. There are also resolutions for lamps in front of several churches, which the parties desiring the same are extremely anxious should be complied with, but I have declined to have the lamps fitted up for the reasons given above.

The contract with William Brandon for five thousand gas lamps is now nearly completed, forty-two hundred and fifty having been delivered, and the balance will be finished in the course of a few weeks.

The contract with John O'Donnell for fifteen hundred cast-iron lamp-posts, is now in progress, some of the posts have been delivered, but no vouchers have as yet been drawn for the same.

All of which is respectfully submitted,

WM. H. CHARLOCK,

Superintendent of Lamps and Gas.

STREET DEPARTMENT, }
BUREAU OF REPAIRS AND SUPPLIES, }

NEW YORK, March 31st, 1865.

HON. CHARLES G. CORNELL, *Street Commissioner* :

SIR—Yours of the 13th inst., in which I am directed to transmit a report of the business of this office for the quarter ending this day, is received. In reply I would respectfully report that in consequence of the “*appropriation*” for “*Public Buildings—Construction and Repairs,*” having become nearly exhausted previous to the 1st of January, no vouchers for payment have been drawn since that time.

During the quarter such expenditures only have been incurred as have been deemed indispensably necessary for the preservation of the public property ; such as glazing, repairs to plumbing work, roofs, &c., the liabilities for which are still outstanding.

The public buildings under the charge of this Bureau, having been, generally, put in good condition during the preceding year, have not materially suffered for the want of more extended repairs.

STATEMENT, showing the condition of the "appropriation" under the exclusive control of this Bureau.

PUBLIC BUILDINGS—CONSTRUCTION AND REPAIRS.

<i>Balance on hand January 1st, 1865.....</i>	\$486 64
<i>Vouchers drawn during the quarter.....</i>	

<i>Balance on hand March 31st, 1865.....</i>	\$486 64

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with directions contained in your Circular Letter of March 13th, I herewith transmit the First Quarterly Report of the business transacted by this Bureau, ending March 31, 1865.

In paper marked "A," you have the amount in detail, charged each Public Office and Department, for the first quarter of the year, amounting in the aggregate to the sum of twelve thousand eight hundred and ninety-one dollars and seven cents, (\$12,891.07.)

In statement marked "B," you have the appropriations upon which vouchers have been drawn, amounts drawn for the first quarter, and the amount on hand against which no vouchers have been drawn.

Respectfully,

CHARLES BOICE,

Dep. Supt. of Repairs and Supplies.

"A."

OFFICE CHIEF ENGINEER FIRE DEPARTMENT, }
21 ELIZABETH STREET, }

NEW YORK, April 1, 1865.

CHAS. G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with instructions contained in your Circular Letter of the 13th of March, 1865, I herewith transmit in detail a summary of all business transacted by this Bureau during the first quarter of the year 1865, including the months January, February, and March.

On the first of January, 1865, the appropriation for Fire Machines and Apparatus was overdrawn to the amount of five hundred and ninety-one dollars and forty-eight cents (\$591.48) as shown by quarterly report transmitted on that date. Since that time there has been transmitted as shown by certified vouchers Nos. 1 to 22, the amount of seventeen thousand one hundred and ninety-three dollars and thirty-seven cents (\$17,193.37), which added to the amount overdrawn, makes the total amount transmitted to be taken from the appropriation for 1865, seventeen thousand seven hundred and eighty-four dollars and eighty-five cents (\$17,784.85).

In monthly statement of March 31, 1865, it is shown that the total amount of outstanding liabilities for which no requisitions or vouchers have been transmitted, is seventy-four thousand one hundred and thirty-five dollars and three cents (\$74,135.03), which added to the amount transmitted and overdrawn, makes the total amount to be taken from appropriation for 1865, ninety-one thousand

nine hundred and nineteen dollars and eighty-eight cents (\$91,919.88).

The detailed abstract of vouchers transmitted during this quarter is herewith annexed.

Respectfully submitted,

JOHN DECKER,

Chief Engineer.

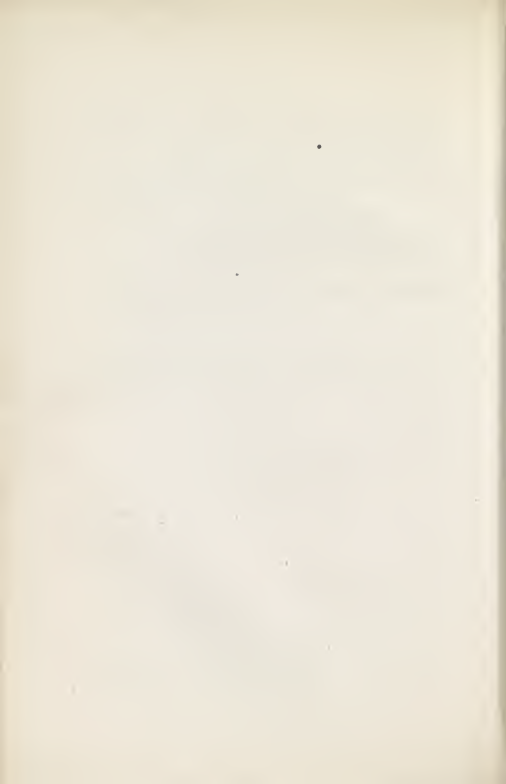

per DAVIDSON.

COMMUNICATION

FROM

THE COMPTROLLER,

TRANSMITTING

A List of Contracts of the Corporation,

FILED AND REGISTERED

In the Department of Finance,

DURING THE YEAR 1864.

—ALSO—

TABULAR STATEMENTS OF PAYMENTS MADE IN SAID YEAR, ON ACCOUNT OF PUBLIC
WORKS UNDER CONTRACT.

NEW YORK:

EDMUND JONES & CO., PRINTERS TO THE CORPORATION.

No. 26 JOHN STREET

1865.

Corporation of the City of New York.

IN THE BOARD OF ALDERMEN, April 10th, 1865.

The following communication was received from the Comptroller, transmitting a list of contracts of the Corporation, filed and registered in the Department of Finance, during the year 1864, with statements of the payments made on contracts in said year, and the same was laid on the table, and one thousand copies thereof were ordered to be printed, under the direction of the Comptroller.

D. T. VALENTINE, *Clerk.*

EXTRACTS FROM THE AMENDED CHARTER AND OTHER LAWS, RELATING TO CONTRACTS
MADE BY THE CORPORATION OF THE CITY OF NEW YORK.

The act, chapter 446, entitled "An Act to amend the Charter of the city of New York," passed April 14, 1857, provides as follows:

"SEC. 38. All contracts to be made or let by authority of the Common Council, for work to be done or supplies to be furnished, * * * shall be made by the appropriate heads of departments, under such regulations as shall be established by ordinances of the Common Council. Whenever any work is necessary to be done to complete or perfect a particular job, or any supply is needful for any particular purpose, which work and job is to be undertaken, or supply furnished for the Corporation, and the several parts of the said work or supply shall together involve the expenditure of more than two hundred and fifty dollars, the same shall be by contract, under such regulations concerning it as shall be established by ordinance of the Common Council, unless by a vote of three-fourths of the members elected to each Board it shall be ordered otherwise; and all contracts shall be entered into by the appropriate heads of departments, and shall be founded on sealed bids or proposals, made in compliance with the public notice advertised in such of the newspapers of the city as may be employed by the Corporation for the purpose; said notices to be published for at least ten days in each of the daily newspapers so employed; and all such contracts, when given shall be given to the lowest bidder, the terms of whose contract shall be settled by the Corporation Counsel as an act of preliminary specification to the bid or proposal, and who shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance; and the adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller. All bids or proposals shall be publicly opened by the officers for advertising the same, and in the presence of the Comptroller. If the lowest bidder shall neglect or refuse to accept the contract within forty-eight hours after written notice that the same has been awarded to his bid or proposal, it shall be re-advertised and re-let as above provided. * * * Every contract, when made and entered into as before provided for, shall be executed in duplicate, and shall be filed in the Department of Finance; a receipt for each payment, made on account of or in satisfaction of the same, shall be indorsed on the said contract by the party receiving the warrant, which warrant shall be only given to the person interested in such contract, or his authorized representative. * * * No expenditure for work or supplies, involving an amount for which no contract is required, shall be made, except the necessity therefor be certified to by the head of the appropriate department, and the expenditure be authorized by the Common Council."

* * * * *

"SEC. 46. No additional allowance beyond the legal claim, under any contract with the Corporation, or for any services on its account, or in its employment, shall ever be allowed."

"SEC. 47. No bid shall be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation."

The act, chapter 308, entitled "An Act relative to contracts by the Mayor, Aldermen, and Commonalty of the city of New York," passed April 17, 1861, provides as follows:

"SEC. 1. All the contracts by or on behalf of the Mayor, Aldermen, and Commonalty of the city of New York shall be awarded to the lowest bidder for the same, respectively, with adequate security, and every such contract shall be deemed confirmed in and to such lowest bidder, at the time of the opening of the bids, estimates or proposals therefor, and such contract shall be forthwith duly executed in the name of said Mayor, Aldermen, and Commonalty, by the head of the department having cognizance thereof, with such lowest bidder."

REPORT ON CONTRACTS FOR 1864.

CITY OF NEW YORK: DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, April 10, 1865.

Gentlemen of the Common Council:

In compliance with the requirements of the twenty-second section of Chapter III., of the Revised Ordinances of 1859, the undersigned herewith submits a list of "contracts made by the Corporation," which were registered and filed in the Comptroller's Office during the year 1864, also statements showing the amount of payments made upon each of said contracts, and the condition of the respective works at the end of the year.

The whole number of contracts filed during the year, (from No. 1045 to No. 1187, inclusive) was..... 143
Of these there were filed by the Street Department, 80
By the Croton Aqueduct Department 60
By the City Inspector's Department..... 3
— 143

The number of contracts registered and filed as above, since 1859, has been as follows :

YEARS.	Street Department.	Croton Aq. Department.	City Inspec. Department.	TOTAL.
1859.....	112	114	3	229
1860.....	78	98	..	176
1861.....	82	77	..	160
1862.....	54	56	..	110
1863.....	130	72	..	202

TRUST ACCOUNTS.

REPORT
OF
SPECIAL COMMITTEE
ON
SUSPENSION OF THE DRAFT
IN THE
CITY OF NEW YORK.

BOARD OF ALDERMEN,
May 8, 1865.

DOCUMENT No. 13.

NEW YORK:
EDMUND JONES & CO., PRINTERS TO THE CORPORATION,
No. 26 JOHN STREET.
1865.

DOCUMENT No. 13.

BOARD OF ALDERMEN.

MAY 8, 1865.

The following Report of the Special Committee appointed to proceed to Washington, relative to the suspension of the Draft in this city, was received, laid over, and ten thousand copies ordered to be printed in Document form.

D. T. VALENTINE,

Clerk.

The undersigned, Special Committee of the Board of Aldermen, appointed to lay before his Excellency, the President of the United States, the opinions and wishes of the Common Council, as contained in the following preamble and resolution, presented by Alderman Farley, viz. :

"Whereas, The glorious successes of the invincible Army of the Potomac, which have culminated in the capture of Richmond, the surrender of the Rebel army of Northern Virginia, and of General Robert E. Lee, Commander-in-Chief of the armies of the so-called Confederate States, must inevitably be the precursor of peace, as the Rebel army under the immediate command of General Lee was for the past year the main stay and prop of the sinking fortunes of the Southern rebellion, and

"Whereas, These successes, following so closely upon the successes of Sherman and of Terry, in Georgia, North and South Carolina, which resulted in the capture of all the seaports in the rebellious States, must certainly obviate the necessity of enforcing the provisions of an obnoxious Conscription Act in this city at a time when it is the confident hope and fervent wish of the people of the loyal States, founded upon the triumphs of our armies, that a lasting and honorable peace and a restored Union will be the gratifying result secured to the people of this city by the valor of our armies; and

"Whereas, It is universally conceded that conscripts do not make as good or efficient soldiers as those who voluntarily assume service in the army; that men forced from their homes, leaving there, unprovided and uncared for, their wives and children, their business and hopes for the future, do not enlist their hearts in the service of their country, to which they are involuntarily subjected, equally with those who have not those ties to bind them to their homes; and inasmuch as there can be no question of the

ability of this City to meet the demands of the General Government, for men, at the present time, and for all time to come, as it has invariably done in the past, were sufficient time allowed for the purpose ; be it, therefore,

“Resolved, That his Excellency, Abraham Lincoln, President of the United States, be earnestly, yet respectfully requested, on behalf of the citizens of this City, to defer, for a period of sixty or ninety days, the enforcement of the provisions of the Conscription Act, as we have an abiding faith that, if such postponement be granted, they will fill all demands made upon them, by men who will voluntarily serve in the armies of the Union,” respectfully

REPORT :

That fully realizing the very great importance of the work assigned to them, and the seemingly insurmountable obstacles to the satisfactory performance of the work, that seemed to surround the whole subject of enlistments in this City, from previous unsuccessful action, coupled with the reiterated threatenings of our Provost Marshal, “that he would have the men (conscripts) if he had to draw them with a fine tooth comb,” and that “the sooner New York City made up its mind to furnish the *men*, the better it would be for all concerned !” impressed your Committee with a solemn conviction of the necessity for prompt, speedy and prudent action on their part : therefore, in order to decide upon a definite plan of proceeding, your Committee met on Tuesday, the 11th day of April, in the chamber of the Board of Aldermen, where they organized, and, after

an interchange of opinions as to the most effectual manner of accomplishing the objects sought to be attained, finally determined upon presenting the case of the drafted men of our city, upon the following basis, viz :

First. A suspension of the draft, relying upon the patriotism of the people to furnish men and means to supply the necessities of the Government by volunteering.

Second. An extension of sixty or ninety days, for the purpose of allowing the city to fill its quota, thereby giving a fair trial to the efforts of our citizens, and of the various local committees.

Third. That each drafted man be allowed, upon furnishing a volunteer, to have his name stricken from the roll of drafted men.

Fourth. To ascertain the disposition of cases of drafted men whose names had twice been drawn from the wheel for the same draft.

It will be observed, that your Committee decided, *first*, to ask an entire "suspension of the draft," and in connection with that, to ask for the third proposition, viz. : "permitting drafted men furnishing volunteers to have their names stricken from the roll." Failing in the *first*, we should then have asked for the *second*, viz. : "an extension of sixty or ninety days for the purpose of allowing the city an opportunity of filling its quota by volunteering," continuing to press, of course, the *third* proposition.

Thus prepared, your committee departed for Washington on Tuesday evening, arriving there at 6 o'clock A. M. on Thursday morning. At 10 o'clock, A. M. on the same day a delegation waited upon the Hon. Edwin

M. Stanton, Secretary of War, who received them and immediately and after patiently and very courteously listening to their request, to fix an hour convenient for a formal interview, with your Committee, in reference to suspension of the draft in this City, replied very promptly "that it would be impossible to grant a formal interview, his time was too much occupied, and could not be spared; that he would be pleased to hear from us in writing, and would send us a reply in writing; that any verbal explanation or communication could not be answered in writing, and that it would be necessary for him to reply in that manner."

The Honorable Secretary gave your Committee every assurance of a kindly feeling toward the drafted men in our City, but stated very distinctly and emphatically that a "suspension of the draft in the City of New York involved the necessity of its suspension throughout all the the States." He further assured your Committee "that he would, upon receiving our communication, give the subject immediate and candid consideration, giving your Committee, if possible, a reply in forty-eight hours.

The delegation promptly reported back to your Committee, and in a very short time a memorial was prepared, and placed in the hands of the Secretary of War.

At the second interview, we had the gratification to hear that the Honorable Secretary, anticipating our application, and being fully impressed with its importance to the drafted men and their families, had already telegraphed to the Provost-Marshals throughout the States, for statistics in reference to volunteering, and the progress of drafting

in order that every fact could be procured, and an immediate, intelligent consideration could be given to the subject. It was further stated that as soon as those statistics could be obtained, a consultation would be held with General Grant, who was coming to Washington, and if the men were not wanted more rapidly than they were offering as volunteers the draft would be suspended.

The Committee retired, highly gratified with the result of their second interview, leaving in the hands of the Honorable Secretary of War, for his consideration, a memorial of which the following is a copy :

WASHINGTON, D. C., April 12, 1865.

To the Hon. EDWIN M. STANTON, Secretary of War :

The Committee of the Common Council of the city of New York, who were appointed in accordance with the provisions of the attached resolutions, beg leave most respectfully to briefly submit the following facts and suggestions for your consideration :

If, upon a calm and candid consideration of the subject, you shall conclude to carry out the main features of the draft already ordered, we would, in that case, ask you to please allow to drafted men the privilege, on presenting a recruit, to have the name of such drafted man erased from the roll of that particular draft. But the Committee would, in the most earnest manner, urge upon your careful consideration the propriety (in view of the present military situation), of suspending all further movements in relation to the draft now in progress, relying upon the patriotism of the people to furnish by volunteering their full ratio of

men needed, as by such a course the Committee believe that the same result could be as speedily arrived at with much less hardship and distress to families, and without at all disarranging the business interest of the metropolis. In submitting these propositions we do so in no factious or dissatisfied spirit, but honestly and sincerely believing that the requirements of the Government will be more rapidly complied with by their adoption than by the present process of enforcing the draft.

We further disclaim all intention of offering anything in reference to any unjust or improper enrollment, or furnishing any lengthy or voluminous statistics, as have heretofore been submitted.

On the contrary, we fully recognize the power of the Government to call for the personal service of the citizen in such manner and way as their superior knowledge of its necessities may determine, and feel it our duty as well as pleasure to second with all our power and energy whatever may be such final determination. We further would most respectfully state that this Committee, nor the drafted men they represent, ask for a suspension of the draft, when the apparently popular notion that our truly wonderful successes in the field, and the possible contingency of an early peace, have made it unnecessary to furnish any more men to the Government; on the contrary, we fully understand that that question is a matter entirely within the good judgment of the Government, and, until an authoritative announcement is made, we, as good citizens, are bound to consider it a matter of first necessity to aid in every way its present demands for men.

With these preliminary statements, we beg leave to state that since such draft was ordered, a period of about seventy

days, has been reduced to such an extent that we are entirely confident we can furnish, by the earnest efforts of the "District Citizen Association," which have been organized in each ward of the City, the balance of our quota at the rate of at least one hundred and twenty-five per day ; this is below our present average, but by securing such number you will perceive at once that it would complete our quota in less than ninety days.

This, the Committee believing, after calmly weighing all the circumstances in its connection, to be a much better result for the Government than could by any possible (probably) means be secured by the enforcement of the draft.

Again, your Committee believe it proper to urge upon your consideration an important fact that has developed itself in the draft in our city. The close observation of this Committee of those drafted, shows that seventy-five per cent. of the number are composed of mechanics and middling class of tradespeople, whose personal and most continuous efforts are required to supply the wants of their large families, and to protect and make lucrative their business. That we believe an enforcement of the draft would be not only most injurious to the business interests of our city, but would throw at once upon the charities of our already over-burdened tax-payers a very large and formidable expense for providing for such families, that in our humble judgment would be entirely unnecessary. We urge this view of the case, based upon an actual knowledge, that there is in our city a large floating population with no particular family or business ties or responsibilities, in excess of those who now volunteer, who are holding back, with the impression that an immediate enforcement of the drafted will be exacted, and they thus be

enabled to receive large sums of money as substitutes instead of the very liberal ones now offered for volunteers.

In conclusion, Mr. Secretary, we feel very sensibly the great responsibilities that rest upon you, and the constant occupation of your time, just at this emergency, with matters of great weight and moment to the weal of our beloved country; but, sir, so keenly and honestly are we alive to the fact that we are really urging a matter which will result in great advantage to the Government, that we cannot close without bespeaking for it your most earnest, thorough and candid consideration, feeling certain that if, after such canvass, you should feel it consistent with your public duty and the necessities of the Government to grant the petition of the drafted men whom we represent you would be the personal means of affording an occasion of joy and thanksgiving to thousands of now anxious hearts in our great city, that will leave us without a single pang to mar or shadow the great national day of joy and thanksgiving about to be ordained and initiated by our respected Chief Magistrate Abraham Lincoln.

Respectfully submitted.

LEWIS R. RYERS,
Chairman.

E. W. TAYLOR,
Secretary.

Upon submitting the above memorial to the Honorable Secretary of War, your committee received renewed assurances of his willingness to give the subject immediate and the most favorable consideration, coupled with the gracious promise to communicate his decision to your Committee the instant his determination in the case was made. Faithful to his promise, in a spirit of kindness and condescension that profoundly impressed your Committee, and within the time named at a former interview with the Honorable Secretary, came the answer to the memorial of your Committee, contained in the following communication :

WAR DEPARTMENT,

WASHINGTON CITY, April 14, 1865.

" *Messrs. TERENCE FARLEY, LEWIS R. RYERS, and others,
Committee, &c. :*

" GENTLEMEN—In reply to your memorial of the 12th inst., in relation to the draft and volunteer enlisting in New York, I have the honor to state that this Department having, upon consultation with Lieutenant-General Grant, come to the conclusion that the recent campaigns have left in the field no rebel force that can withstand the armies of the Union, it has been deemed expedient to stop all drafting and recruiting under the pending call of the President, and it is believed the force now on foot may soon be reduced.

" Yours truly,

" EDWIN M. STANTON,
Secretary of War."

The reply of the Honorable Secretary of War it is needless to say, was received by your Committee with feelings of profound gratitude ; and the fact that the determination of the War Department to give a general, instead of a local application to the requests contained in the memorial, addressed on behalf of the drafted men in this city to the War Department, added largely to the gratification experienced by your Committee. The draft was suspended not only in this city, but throughout the loyal States ; the work delegated to your Committee was more than accomplished. The flashing lightning, charged with the glorious news, sped along the wires all over our country, and spoke words of consolation and peace and quiet to many an aching heart. The efforts of your Committee, although directed only in behalf of the suffering of our own city, was made the happy occasion of producing results that were sources of unalloyed happiness and rejoicing throughout the land.

Your Committee, before asking to be discharged from the further consideration of the subject, by reason of having successfully accomplished the object of their mission, believe it to be due to the Honorable Secretary of War, that some fitting and appropriate testimonial should be tendered to him, for the courtesy, kindness, and affability that characterized his intercourse with your Committee, and the alacrity he evinced in seconding their efforts on behalf of our citizens, to relieve them from the burthens imposed upon them in consequence of the expressed determination on the part of his subordinate in this city to enforce the rigors of the conscription act, rather than of relying upon the more certain and equally expeditious

means of supplying the demands of the Government for men, by volunteering.

The following resolutions are, therefore, respectfully offered for your adoption :

Resolved, That this Common Council, the immediate representatives of the people of this city, does hereby tender its thanks to the Hon. Edwin M. Stanton, Secretary of War, for the very friendly, courteous and affable manner in which he was pleased to receive the representatives of the Special Committee appointed to visit Washington, charged with advocating the interests and presenting the wishes of the people of this city, before the General Government, in respect to a suspension of the draft, had, pursuant to the last call of the President, for three hundred thousand men, as well as for the alacrity and cheerfulness with which he granted the application of the Committee, made on behalf of our drafted citizens, for a suspension of all further proceedings to be had or taken in connection with such draft; and we beg permission to assure him that his disinterested and generous intercession, and his prompt and decided action in their behalf, will ever be held by the municipal government of this city, and its constituents, in grateful remembrance; and be it further

Resolved, That a copy of the foregoing resolution, duly authenticated, and signed by each member of the Common Council, be suitably engrossed and framed, and transmitted to the Hon. Secretary of War, as a slight token of the appreciation by the Common Council of his kindness and consideration for the people of our city, particularly those

who had been selected to take up arms for the Government, through the operations of the Conscription Act.

COMMUNICATION
FROM THE
STREET COMMISSIONER,
TRANSMITTING HIS
SECOND QUARTERLY REPORT FOR THE YEAR 1865;
BEING THE
Business of the Street Department
UP TO AND INCLUDING
JUNE 30TH, 1865.

BOARD OF ALDERMEN,
December 9th, 1865.

DOCUMENT No. 14.

NEW YORK:
EDMUND JONES & CO., PRINTERS TO THE CORPORATION,
No. 26 JOHN STREET.
1865.

DOCUMENT No. 14.

BOARD OF ALDERMEN,

DECEMBER 9, 1865.

The following communication from the Street Commissioner, submitting his Second Quarterly Report for the year 1865, being business of the Street Department up to and including June 30, 1865, was received, laid on the table, and the usual number of copies ordered to be printed in Document form.

D. T. VALENTINE,

Clerk.

STREET COMMISSIONER'S OFFICE, }
NEW YORK, June 30, 1865. }

To the Honorable the Common Council :

GENTLEMEN—In compliance with the requirements of the Charter and Ordinances of the Common Council, the Street Commissioner herewith respectfully submits his

Second Quarterly Report of the state of this Department, and the public business connected therewith.

Since the First Quarterly Report, submitted March 31, 1865, requisitions have been drawn by this Department upon the Comptroller, for work done and supplies furnished, amounting in the aggregate to the sum of five hundred and fifty-five thousand eight hundred and seventy-three dollars and fourteen cents (\$555,873.14); of this amount fifty-nine thousand seven hundred and eighty-nine dollars and fifty-three cents (\$59,789.53) has been drawn upon Trust Account, and will accordingly be reimbursed the City Treasury in the usual form of assessment upon the property benefited; this will leave the amount drawn upon "Tax Appropriations," during the quarter, four hundred and ninety-six thousand and eighty-three dollars and sixty-one cents (\$496,083.61).

In the accompanying Appendix A will be found the balance of the appropriations relating exclusively to the Street Department on hand January 1, 1865; amount appropriated by the Legislature for the year; the total amount of appropriations available for the year 1865; amount of requisitions drawn upon the Comptroller for the quarter ending March 31, 1865; amount of requisitions drawn for this the second quarter, ending June 30, 1865; and the balance available on the 1st of July, 1865; together with the amounts drawn on appropriations not exclusively appertaining to the Street Department, and amounts drawn on Trust Account.

In Appendix B will be found full details of requisitions drawn on the Comptroller, the number and particulars of

assessment lists delivered to the Collector of Assessments, amount collected by him and paid to the City Chamberlain, assessments returned uncollected to the Bureau of Arrears, and all matters under the cognizance of the Book-keeper of this Department.

The reports of the various bureaux connected with this Department are herewith submitted, and the attention of your Honorable Bodies is most respectfully called to the suggestions contained therein, and also to the detailed statements of the public business transacted by them respectively during the quarter. The report of the Superintendent of Lamps and Gas is of importance, and should receive your early consideration, referred to hereinafter.

BUREAU OF STREET IMPROVEMENTS.—The Superintendent of this Bureau reports very fully all matters of transaction in his Bureau during the quarter. By his report it will be seen that seventy-nine thousand two hundred and thirty-six dollars and twenty-seven cents (\$79,236.27) is the sum required to cover the amount of work done during the quarter; the sums retained (being thirty per cent. on payments and excess of inspection) amount to seventeen thousand one hundred and fifty-four dollars (\$17,154), leaving amount of vouchers issued sixty-two thousand and eighty-two dollars and twenty-seven cents (\$62,082.27).

BUREAU OF WHARVES, PIERS, AND SLIPS.—The expenditures during the quarter in this Bureau amount to thirty-seven thousand seven hundred and ninety-seven dollars and eighty-six cents (\$37,797.86). Bulkheads, piers, and dumping-boards, to the number of twenty-nine, have been repaired.

BUREAU OF LANDS AND PLACES.—The Superintendent of this Bureau reports having made extensive alterations and improvements in the public parks, more especially in the City Hall Park, where the old barracks used for recruiting and incidental purposes of the War have been removed, new posts and chain set, the walks regravelled, curbed, and flagged, the grass-plats put in complete order, and the Park restored to its pristine beauty. But three hundred and seventy-three dollars and twenty-five cents (\$373.25) were expended during the first quarter of this year, while seventeen thousand one hundred and eighty-one dollars and three cents (\$17,181.03) were expended during the second quarter.

BUREAU OF ROADS.—Vouchers have been drawn during the quarter, for work done by this Bureau, to the amount of ten thousand eight hundred and seventy-four dollars and seventy-five cents (\$10,874.75).

BUREAU OF REPAIRS AND SUPPLIES.—In consequence of the much-needed repairs to the public buildings of the city, subsequent to the usual wear of the winter, and from the exhaustion of the appropriation for the past year—no vouchers having been drawn during the first quarter of this year—a large amount of business fell to the charge of this Bureau. Requisitions for work done and supplies furnished during this quarter have been very large, amounting in the aggregate to forty-three thousand eight hundred and thirty-one dollars and seventy-seven cents (\$43,831.77).

DEPUTY SUPERINTENDENT OF REPAIRS AND SUPPLIES.—From the report of the Deputy Superintendent it will

be found that seventy-one thousand five hundred and fifty-one dollars and ninety-three cents (\$71,551.93) have been drawn from the Treasury for supplies furnished public offices during the quarter, and that seven thousand five hundred and seventy-nine dollars and eighty-four cents (\$7,579.84) have been expended for the Fire Department by the Deputy during the same period, making a total of seventy-nine thousand one hundred and thirty-one dollars and seventy-seven cents (\$79,131.77) drawn upon the Comptroller during the second quarter.

BUREAU OF LAMPS AND GAS.—The Superintendent of this Bureau reports very fully and completely all matters of transaction in his Bureau during the quarter. The following will show the state of the appropriations for Lamps and Gas:

Expenditures during the quarter.....	\$213,174 80
Balance against which no vouchers have been drawn.....	379,674 38
Liabilities against the Bureau (about).....	192,000 00
Available balance (about).....	187,674 38

The liabilities alluded to above are those accrued from a demand made by the gas companies for higher rates, which I have deemed it not within my province to pay. The matter remains in abeyance, and should, doubtless, receive your early attention.

BUREAU OF FIRE DEPARTMENT.—The Chief Engineer of the Fire Department reports vouchers drawn on the Comptroller for repairs to, and supplies for, apparatus, &c., amounting in the aggregate to the sum of one hundred and fifteen thousand five hundred and sixty-seven dollars

and sixty-one cents (\$115,567.61) during the second quarter of the year.

BUREAU OF ASSESSMENTS.—On the 1st of April, 1865, as will be seen by the last quarterly report, there was a balance of assessments uncollected, remaining in the hands of the Collector of Assessments, amounting to five hundred and twelve thousand seven hundred and three dollars and seventy cents (\$512,703.70), twenty-one assessments have been transmitted to the Collector since that date, amounting in the aggregate to the sum of one hundred and fifty-two thousand three hundred and twenty-six dollars and thirty-five cents (\$152,326.35); there has been collected as interest on assessments also, during the quarter, two thousand six hundred and fifty-nine dollars and ninety-nine cents (\$2,659.99), making a total indebtedness of the Collector, six hundred and sixty-seven thousand six hundred and ninety dollars and four cents (\$667,690.04); during the quarter, the Collector has been credited with one hundred and eighty thousand two hundred and ninety dollars and fifty-nine cents (\$180,290.59), paid to Daniel Devlin, City Chamberlain, on assessments collected, and eighty-nine thousand two hundred and fifty-two dollars and seventy-four cents (\$89,252.74), transmitted to the Clerk of Arrears, through this Department, for assessments uncollected, which, with an excess of twenty cents that occurred in footing up the abstract of "First avenue, Regulating," leaves the Collector of Assessments still charged with three hundred and ninety-eight thousand one hundred and forty-six dollars and fifty-one cents (\$398,146.51) on uncollected assessments in his hands on this day.

The attention of your Honorable Bodies is respectfully

called to the report of the Superintendent of Lamps and Gas, herewith submitted, as it gives a complete history of all gas contracts entered into between the city and the several gas companies, also the provisions under which the gas has been furnished, and general facts in connection with that subject.

Your Honorable Bodies, on the 30th of December last, adopted a resolution, which was duly approved by his Honor the Mayor, authorizing and directing the Street Commissioner to enter into contracts for lighting the several districts of the city with gas, and I beg leave at this time to give a statement of facts, so far as known to this Department, on all matters pertaining to the subject.

On August 17, 1864, a communication was addressed to this office, by the President of the Metropolitan Gas-light Company, giving notice that on and after September 1, 1864, they should charge the city the sum of fifty dollars per annum for each and every street lamp lighted by said company.

- * On the 22d of August of same year, a similar notice was received from the President of the Harlem Gas-light Company. As there was no authority vested in the Street Commissioner to audit and allow bills at such increased rates, I had the honor to address your Honorable Bodies a communication, under date of August 30, 1864, conveying the fact of said notices having been received, and requesting that some action might be taken whereby the Street Commissioner should be authorized to enter into contract for lighting the lamps of these districts.

On the 19th of October, 1864, a communication was

received at this office from the President of the New York Gas-light Company, giving notice that, from and after November 1, the company would expect considerable increase from the prices at that time paid. Again I addressed your Honorable Bodies, under date of 24th of October, 1864, submitting the fact of the notice having been received, referred to a communication on the same subject, and urging your earliest consideration and favorable action on the recommendations made to the effect that contracts might be made.

By a perusal of the report of the Superintendent of Lamps and Gas, and the annexed papers, your Honorable Bodies will observe that the city was left entirely at the mercy of the gas companies; they could light the public lamps in their respective districts, or *not*, just as they pleased; they could, if so disposed, furnish a poor quality of gas, and no power existed in this Department to remedy the matter; they *could charge their own prices*. And in a suit brought by the Harlem Gas-light Company in the Superior Court, they have obtained judgment for the full amount claimed, which was at the increased prices; and yet, again, the Harlem Gas-light Company, not being satisfied with the terms mentioned in the first notice, did, on the 28th of March, 1865, address another notice to the Street Commissioner, to the effect that the company would not consider themselves bound to the prices demanded in the first notice after April 1, 1865, but should hold itself at liberty to claim and demand from the city such additional price per lamp as said company should be reasonably entitled to receive, and the same may be reasonably worth. This was the state of affairs when your Honor-

able Bodies adopted the resolution above referred to, and which expressly stated that the contract should be made for a period of *one* year, and should take effect on the 14th day of January, 1865, only sixteen days from the date of the resolution.

The high prices of labor, coal, and other materials used in the manufacture of gas was, no doubt, considered sufficient reason why a contract should not be made at that time for a longer period than one year. I myself was of the opinion that it would have been impolitic to have entered into contract for a much longer time, for it is evident that the estimates would have been based upon the prices then paid for coal, &c., and it may be reasonably supposed that in the course of a very few years the exorbitant prices caused by our recent war will have considerably fallen, and that the cost of gas will have decreased in proportion.

It was also understood, and so expressed in my various communications addressed to the Common Council, that the great objects sought in making the contract for lighting the city with gas were :

First. It legalized the action of the Head of the Department in creating the expenditures.

Second. By the provisions of the contract the city could direct and govern the time of lighting and extinguishing the lamps, the cleaning of the same, and the quality of gas to be furnished, and would know the price to be paid therefor.

Third. The Department would be able to recognize

the right of the gas companies, and the laying of mains in the new streets and avenues could be proceeded with, and the fitting up of lamp-posts where necessary could all be done, without prejudice either to the city or the company.

It was considered important by the Common Council that the contracts should be made as soon as possible, and were ordered to take effect, as I have before stated, only sixteen days from the approval of the resolution. By law advertisements have to be made for ten days, inviting proposals, leaving six days' time for the approval of the sureties and the execution of contracts. It has been said that, by inviting bids to be made by districts instead of for the whole city, it necessarily precluded other gas companies than those at the time lighting the districts from bidding for any other district than the one they were lighting. I aver that that fact could not deprive others from bidding, and that any company, if so disposed, could bid for one or more districts, or for the whole, if thought desirable. It could not be supposed, however, that in sixteen days' time new mains could be laid in each district, and gas furnished through the same, and new works erected for the manufacture of the extra quantity of gas that would be required for more than one district.

On the 31st day of December last a communication was received from the Manhattan Gas-light Company, giving notice that, in pursuance of a resolution of the Common Council, approved by his Honor the Mayor December 31, 1864, the said company did desire and elect to terminate the contract then existing between the Corporation of the city of New York and that company. Also, on the 26th

of January another communication was received from the same company, in which they notified this Department that, having made and delivered proposals for lighting the lamps in their district, to which proposals no answer had been received, they would, after the 10th day of January, charge, and require to be paid, at the rate of fifty-three dollars per annum for each lamp lighted and taken care of by said company. So far as relates to the Manhattan Gas-light Company, this Department certainly had no power or option in the matter. Whether the contract is legally annulled by the resolution of the Common Council or not is a matter of law, and not a question for the Department to decide. The Street Commissioner has not the right to divide or separate in parts a resolution of the Common Council. Where it directs him, as an executive officer, to perform a specified duty, he has no power in the premises but to obey their mandate. Bids for all the districts had to be advertised for under the resolution, but the question of awarding the contracts was one that could have been determined after the bids were received and opened, for *that right was expressly reserved* in the advertisement to decline any or all the proposals if deemed for the interests of the Corporation.

In the communication of the Comptroller addressed to the Common Council on January 16, 1865, he states that "no provision for the public interest is to be required." This would, no doubt, lead the public to infer that this Department had advertised for "proposals," and had made no provision in the "agreement" whereby the interests of the city would be protected. I have caused a copy of the agreement for which estimates were invited to be attached to

the Superintendent of Lamps and Gas' report, marked *, and by a perusal of the same your Honorable Bodies will observe that careful and guarded provisions were inserted for the protection of the city's interests in every essential particular. The form was approved by the law officer of the city ; and I have no hesitation in saying that in fact every matter that experience could suggest, whereby the interests of the city could be promoted, was placed therein, and no contract for lighting public lamps in this city ever before made can be compared with these in that respect.

The report of the Superintendent of Lamps and Gas goes fully into this matter, showing the difference between this and other contracts, the evils arising from the lack of binding clauses, and the great difficulty experienced in the transaction of business with the gas companies. It will well pay perusal, as the matter is one worthy your attention. I would here beg leave to say that, in my opinion, the recommendations of the Superintendent of Lamps and Gas are such as should meet with your most favorable action.

To conclude upon this subject, I would say that, as one of the gas companies has already obtained judgment in its favor, as before stated, at the increased prices, should the other companies obtain the same decision, the amount required to pay will be large indeed, and this without any means of redress and without any power to protect the Corporation. This state of affairs leads to confusion, embarrassments, and great expense, which, I here reiterate, can only be remedied by contracts made under such provisions that the city, through its responsible officers, may direct as to all the details connected with the supplying of gas to the city. The city is being now

lighted without authority or sanction of law, without any regulations, only such as the gas companies may see proper to adopt without regard to this Department.

I have thus again called the attention of your Honorable Bodies to this most important subject, with the hope that such action may be taken as will, in effect, give this Department the proper authority to remedy this great grievance by some definite and satisfactory agreement with the several gas companies.

Respectfully submitted,

CHARLES G. CORNELL,

Street Commissioner.

 " 4—69th street, from 1st to 2d avenue, regulating and grading.—Pat. Farley, contractor.

NEW YORK, June, 30, 1865.

GILBERT M. PLATT,

Superintendent of Street Improvements.

STREET DEPARTMENT,
BUREAU OF WHARVES, PIERS, AND SLIPS, }

NEW YORK, June 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—The Second Quarterly Report, showing the business transactions of this Bureau for the quarter ending June 30, 1865, is herewith respectfully transmitted.

Schedule A contains a detailed statement of the amount of expenditures for this quarter, amounting to thirty-seven thousand seven hundred and ninety-seven dollars and eighty-six cents (\$37,797.86).

The appropriations upon which vouchers have been drawn, and the amount thereof, during the same period, is shown in Schedule B.

Schedule C shows the contracts awarded during this quarter, the names of the contractors, together with the amount required and time allowed for completion. There are a great many piers on the North and East rivers in a very dilapidated condition, but the very limited means placed at the command of this Bureau has rendered it impossible to make repairs upon them all.

Respectfully, yours,

ROBERT EARL.

Superintendent of Wharves, Piers, and Slips.

SCHEDULE A.

SHOWING the expenditures of the Superintendent of Wharves, Piers, and Slips, together with the application of the same, for the Second Quarter of the year, ending June 30, 1865.

Amount of Vouchers drawn during the quarter ending June 30, 1865.....	500 00	
Balance unexpended June 30, 1865.....		<u>\$6,776 00</u>
APPROPRIATION--SUNKEN VESSELS, REMOVING		
Balance unexpended... ..		<u>\$100 00</u>
Appropriation—Pier at Manhattanville...		<u>\$25,000 00</u>
Appropriation—Pier foot of One Hundred and Thirty-eighth street.		<u>\$2,000 00</u>

SCHEDULE C.

During the Quarter ending June 30, 1865, the following contracts have been awarded:

For repairing Pier No. 8, East river: William H. Adams, contractor, time allowed, 50 days.....	\$7,090 00
Rebuilding bulkhead line west side of Pier No. 8, East river: George White, contractor, time allowed, 30 days.....	1,248 00
Rebuilding outer portion of Pier No. 22, East river: George White, contractor, time allowed, 40 days.....	3,957 00
Rebuilding Pier No. 37, East river: David Babcock, contractor, time allowed, 60 days,	7,200 00
Pier No. 44, East river: George Babcock, contractor, time allowed, 60 days....	7,650 00
Replanking and fendering Piers, Nos. 56 and 57, East river: F. & A. Walsh, contractors, time allowed, 30 days.....	5,312 00
Dredging slip on both sides of Pier No. 61, East river: Isaac Orr, contractor, time allowed, 30 days.....	5,075 00
Rebuilding bulkhead line north side of Rivington street, East river: Tompkins & Lynch, contractors, time allowed, 60 days,	2,974 00
Rebuilding Pier No. 14, and bulkhead between Piers Nos. 13 and 14, North river: William H. Adams, contractor, time allowed, 60 days.....	9,425 00
Carried forward	\$49,931 00

Brought forward	\$49,931 00
Rebuilding inner portion of Pier No. 37, North river: George White, contractor, time allowed, 60 days.....	6,295 00
Rebuilding bulkhead between Piers Nos. 45 and 46, North river: George White, contractor, time allowed, 30 days.....	1,239 00
Rebuilding Pier No. 47, North river: A. M. Underhill, contractor, time allowed, 80 days.....	3,000 00
Building gridiron on the outer end of Pier No. 51, North river: John H. Beaver, contractor, time allowed, 30 days	2,465 00
Rebuilding Pier No. 62, North river: Isaac Hendrix, contractor, time allowed, 30 days,	5,850 00

STREET DEPARTMENT, BUREAU OF ROADS, }
NEW YORK, June 30, 1865. }

C. G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with the requirements of your Circular Letter of June 16, 1865, I submit the following report of the public business performed by this Bureau during the quarter ending this 30th day of June, 1865.

Expenditures on account of appropriation for Roads and Avenues for the quarter amount to the sum of ten thousand seven hundred and forty-nine dollars and seventy-five cents (\$10,749.75), together with one hundred and twenty-five dollars (\$125) drawn upon appropriation "Contingencies, Street Department," making total expenditures during the quarter amount to the sum of ten thousand eight hundred and seventy-four dollars and seventy-five cents (\$10,874.75).

The work done upon the roads during the quarter is principally as follows :

Broadway, from Fifty-ninth to Sixty-sixth street, also from Seventieth to Seventy-fifth street, macadamized with limestone, gravel, and broken stone. Bloomingdale road, from Ninetieth to One Hundred and Eighth street, and from One Hundred and Eighteenth to One Hundred and Twentieth street, are being repaired with limestone chips, stone, and gravel ; the drains along these roads have also been put in good order. Harlem lane, from Seventh avenue to One Hundred and Tenth street, also from Ninety-sixth street to Jauncey lane, I have had repaired with gravel

and stone. Jauncey lane, from Bloomingdale road to Eighth avenue, which required extensive repairs, is now in good order.

The following streets have been repaired, and the gutters cleaned where necessary: Eighty-seventh to Ninetieth street, from Third to Fifth avenue; Eighty-third, Eighty-fourth, Eighty-fifth, and Eighty-sixth streets, from First to Fifth avenue; Seventy-third street, between Third and Fourth avenues; Sixty-sixth street, from First to Second avenue; and Seventy-first street, between First and Third avenues.

The Kingsbridge road, from Manhattanville to the bridge, also Tenth avenue, from Saul's tavern to High Bridge, are undergoing extensive repairs and will soon be in good order.

Various other streets and parts of streets have been repaired and holes filled where necessary.

The amount of appropriation for Roads and Avenues for the year 1865 is seventy-five thousand dollars (\$75,000), with balance from last year of one thousand one hundred and seventy dollars and forty-seven cents (\$1,170.47), making altogether the sum of seventy-six thousand one hundred and seventy dollars and forty-seven cents (\$76,170.47), of which was expended, for the first quarter, one thousand two hundred and thirty-three dollars and fifty cents (\$1,233.50), and during the present quarter, the sum of ten thousand seven hundred and forty-nine dollars and seventy-five cents (\$10,749.75), leaving available balance of sixty-four thousand one hundred and eighty-seven dollars and twenty-two cents (\$64,187.22).

Jauncey lane.—The amount of appropriation for the year 1865 is two thousand dollars (\$2,000).

Break-neck Hill Road.—In consequence of return of vouchers heretofore drawn, the amount of appropriation for this road is one thousand five hundred dollars (\$1,500).

Eleventh avenue.—By return of unpaid vouchers, there is an available balance of eight hundred and twenty-two dollars (\$822) to the credit of this account.

Respectfully,

ISAAC EDWARDS,

Superintendent of Roads.

STREET DEPARTMENT,
BUREAU OF LANDS AND PLACES, }

NEW YORK, June 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with the directions contained in your Circular Letter of the 16th inst., I herewith transmit a summary of the business transacted in this Bureau during the second quarter of the year, ending June 30, 1865, together with the amounts of certified vouchers drawn by me during the same period, on account of the appropriation for Lands and Places for 1865.

I submit the following statement as giving the condition of each and all the several public parks, viz. :

BATTERY PARK is in very good order. I have had trees planted and the walks repaired.

CITY HALL PARK.—This park is now in very good condition. I have had the walks repaired, the plots seeded and sodded, the curbs and flagging reset, and new benches and chain-posts put down. I have also had the park railing replaced, and the fountain railing repaired ; also trees and shrubbery planted.

BOWLING GREEN.—I have had this park opened to the public, new walks laid out, the fountain repaired, and a gateway cut in the railing ; also new benches put down.

WASHINGTON PARK is in good order. The walks have been repaired, the grass cut, trees planted, and new benches put down.

UNION PARK.—This park is in very fine order. I have had trees planted, the flower beds raised, the borders cut,

the walks repaired, and a new hydrant placed on the west side of the park.

MADISON PARK is in good condition. I have had the walks repaired, trees planted, and new benches put down.

EAST AND WEST STUYVESANT PARKS are in the best possible condition. The grass has been cut, new benches put down, and the walks repaired.

RESERVOIR PARKS are in fair order. Trees have been planted, the grass cut, and the gates repaired.

ABINGDON, CHRISTOPHER, DUANE, COOPER INSTITUTE, FOURTH AVENUE, AND HARLEM PARKS are all in fair condition. I have had trees planted, and the shrubbery and grass cut.

Amount of appropriation for Lands and Places for 1865 is forty thousand dollars (\$40,000); also an unexpended balance of last year's appropriation of nine hundred and twenty-three dollars and fifty-three cents (\$923.53); of which was expended during the first quarter, three hundred and seventy-three dollars and twenty-five cents (\$373.25); and during the second quarter, seventeen thousand one hundred and eighty-one dollars and three cents (\$17,181.03); leaving an unexpended balance of twenty-three thousand three hundred and sixty-nine dollars and twenty-five cents (\$23,369.25),

Respectfully submitted,

ALEXANDER WARD,

Superintendent of Lands and Places.

* STREET DEPARTMENT, }
 BUREAU OF LAMPS AND GAS, }

NEW YORK, June 30, 1865.

CHAS. G. CORNELL, Esq., *Street Commissioner :*

SIR—In compliance with the directions contained in your Circular Letter of the 16th instant, I herewith submit my report of the work done and expenditures incurred by the Bureau of Lamps and Gas, during the three months ending this date.

In Exhibit marked "A" you will find an abstract of all vouchers certified by me during the quarter. In Exhibit B you will find a statement showing the amounts paid for gas, &c., to the various public markets, bell-towers, public offices, &c., and for fitting up, repairing, and lighting the public lamps ; and in Exhibit C, a statement of expenditures, as shown by the certified vouchers of this Bureau, showing an expenditure during the quarter of two hundred and thirteen thousand one hundred and seventy-four dollars and eighty cents (\$213,174.80), leaving a balance, against which no vouchers have been drawn, of three hundred and seventy-nine thousand six hundred and seventy-four dollars and thirty-eight cents (\$379,674.38). You will also find in this statement a list of liabilities against the Bureau, amounting, as you will see, to about one hundred and ninety-two thousand dollars, leaving an available balance of about one hundred and eighty-seven thousand six hundred dollars. These liabilities are principally on account of lighting the public lamps, and are based upon the prices mentioned in the old contracts,

and they remain unsettled, as stated in my report of March 31, because the gas companies have all demanded higher rates, which this Department is not authorized to allow. In Exhibit A, however, you will see that vouchers have been drawn in favor of the Harlem Gas-light Company for lighting public lamps from September 1, 1864, to April 30, 1865; and the New York Gas-light Company for lighting public lamps from November 1, 1864, to April 30, 1865. These vouchers were made out at the old rates, less ten per cent. retained, in accordance with an understanding between the gas companies and the Comptroller, pending the decision of the courts in the suit of the "Harlem Gas-light Company against the Mayor, &c., of the city of New York."

The contract with William Brandon, dated July 2, 1863, for five thousand gas lamps, was completed on the 17th of May last, and final payment made thereon. The contract with John O'Donnell, dated December 31, 1864, for fifteen hundred cast-iron lamp-posts, is now in progress, five hundred of the same having thus far been furnished.

In accordance with your request, I beg leave also to submit the following statement, as giving a history of gas matters as they appear upon the records of this Bureau:

The first contract entered into in this city for lighting lamps with gas, was executed on the twelfth day of May, in the year one thousand eight hundred and twenty-three, by and between the Mayor, Aldermen and Commonalty, parties of the first part, and the New York Gas-light Company, parties of the second part (a copy of which is hereto annexed, marked "D"). This contract or grant gave to the said company the "exclusive right of laying their mains

in all the public streets and parts of streets in the city of New York, lying and being south of a line commencing at the East river, at the foot of Grand street, and running through Grand street to Sullivan street, and through Sullivan street to Canal street, and through Canal street to the North or Hudson river," and the same was to continue for thirty years, or until the twelfth day of May, in the year one thousand eight hundred and fifty-three. It was stipulated therein that the gas to be furnished should be of the best quality, "equal in brilliancy or intensity to the gas used in the public lamps at that time in the city of London," and the cost of the same was not to exceed the expense of lighting an equal number of lamps with oil. This contract, it will be seen, expired by limitation in May, 1853, but another contract was executed with the same company on the 10th day of January, 1854, by the Commissioner of Streets and Lamps, for the term of one year only. This contract was nearly in the same language as the former; the exclusive right granted in the first, however, was omitted, and nothing was said about the quality of gas to be furnished. It was stipulated, moreover, that the company should be paid at the rate of fifteen dollars forty-seven and two-tenths of a cent (\$15.47 2-10) per annum for each and every lamp lighted by them, and the lamps were to be kept burning on an average of two thousand three hundred (2,300) hours in each year. This was on the old system of omitting to light the street lamps on moonlight nights. This contract also contained a further provision that if at any time, in compliance with the directions of the parties of the first part, the number of hours during which the public lamps or any portion of them should be kept burning in any year should exceed

the twenty-three hundred mentioned in the agreement, then, in that case, the said parties of the second part should be entitled to claim and receive for such additional number of hours an additional compensation, equivalent to a *pro rata* increase of the amount therein allowed.

By resolution of the Common Council, passed in December, 1853, and approved by the Mayor January 3, 1854 (seven days prior to the signing of the contract), the Commissioner of Streets and Lamps was "authorized and directed to have the streets lighted from dark until daylight every night throughout the year, in accordance with the contracts then existing between the Corporation and the New York and Manhattan Gas-light Companies." This resolution increased the number, for each lamp to be kept lighted annually, from two thousand three hundred hours to three thousand eight hundred and thirty-three hours and twenty minutes; thereby increasing the cost of lighting each lamp to twenty-five dollars seventy-eight and two-thirds of a cent per annum (\$25.78 $\frac{2}{3}$). This contract expired by limitation on January 10, 1855, and has never been renewed. The lighting of the public lamps in this district has been continued up to November 1, 1864, upon the terms and conditions mentioned in the last contract.

The second contract entered into by the Common Council was with the Manhattan Gas-light Company, and was dated the eighth day of May, in the year one thousand eight hundred and thirty-three. This contract or grant gave to the said company the right to lay mains "in any and all of the streets, avenues, and public places of the city of New York, lying and being north of

a line commencing at the East river, at the foot of Grand street, and running through Grand street to Sullivan street, and through Sullivan street to Canal street, and through Canal street to the North or Hudson river, and south of the line of Sixth street." This contract was to continue for twenty years, or until the twelfth day of May, in the year one thousand eight hundred and fifty-three, and contained the same provisions and conditions, almost word for word, as the first contract of the New York Gas-light Company, excepting that the price for lighting the lamps was to be fifteen dollars per annum for each lamp. The company continued to light the lamps under this agreement until May, 1848.

On an examination of the proceedings of the Common Council of 1847, I find that resolutions were from time to time adopted, directing the Company to fit up lamps and light the same in various streets and parts of streets lying north of Sixth street; but inasmuch as the gas company could only be required by their contract to fit up and light the lamps below Sixth street, the Common Council had no power in the matter, and consequently could not get the lamps lighted as desired. In consequence of this state of facts, the following preamble and resolution was introduced in the Board of Aldermen on the 21st of June, 1847, viz. :

"Whereas, The rapid growth of the upper wards of this city calls for an extension of the Lamp District in the same.

"And Whereas, True economy demands that permanent arrangements be made for the lighting of the city with gas, as recommended by his Honor the Mayor in his message; therefore,

“Resolved, That a special committee be appointed to confer with the President and Directors of the Manhattan Gas Company in relation to this important subject, and to ascertain and report to the Common Council at what rate the said company will furnish the necessary gas and fixtures, upon a contract for a term of years, and to report their own views and conclusions in the premises.”

The committee asked for was appointed, and the result of their action was the adoption of a resolution that the old contract be canceled, and a new one entered into, to continue for twenty years from the date thereof. Under the new contract (a copy of which is hereto annexed, marked “E”) the gas company was to fit up and light all the public lamps required by the Corporation, wherever the pipes of the company should be laid, in that part of the city between a line commencing at the East river, at the foot of Grand street, &c., and a line commencing at the East river, at the foot of Forty-second street, and running parallel with said street to the North river, embracing both sides of said street.

For the light, and the lighting and extinguishing of the public lamps, within the district above named, the company was to receive the sum of fifteen dollars per annum for each lamp and for the fitting up of the same the sum of five dollars for each lamp. The cost of the posts, lanterns, and *repairs* to be at the expense of the Corporation as before.

The Corporation was to have the right to order the mains of the company to be extended to such points as they might direct, commencing at Grand street, and continuing through each street in regular succession, to an

amount not exceeding the sum of six thousand dollars in any one year during the continuance of the contract.

The number of hours during which the public lamps were to be kept burning in any year was to be twenty-three hundred hours; but the provision was inserted that, if, at any time during the continuance of the contract, the Corporation should direct the lamps to be kept burning a greater number of hours, then the company were to be entitled to claim and receive a *pro rata* increased rate of compensation for such greater number.

The burners were to be equal to an average consumption of three cubic feet of gas per hour.

The Corporation was to protect the interests of the company by the passage of such ordinances as might be necessary for that purpose.

All the other provisions in the contract were precisely the same as before, with the exception that a clause in the old contract, requiring the Company to pay one dollar and fifty cents per day to an Inspector, to be appointed by the Street Commissioner to superintend the opening and repairing of the streets, was left out.

In accordance with the above action the old contract was canceled, and a new one made to continue for twenty years from the fifth day of May, in the year one thousand eight hundred and forty-eight. It appears, however, that this was not done at the request of the gas company, but at the request and on behalf of the Corporation, in order that gas mains might be laid, and lamps erected, in the upper section of the city, and that the citizens residing therein might have the benefit of the gas. It will be seen, more-

over, that the provisions placed in the second contract made it more advantageous to the city than the first. The omission of the clause relative to the Inspector amounted to nothing, as the inspection of the opening or repairing of the street when required was done by the Superintendent of Lamps and Gas, and the city is under no expense whatever for the same.

By the resolution of the 3d of January, 1854, before referred to, the number of hours for each lamp to be kept burning during the year was increased from twenty-three hundred hours to thirty-eight hundred and thirty-three hours and twenty minutes, thereby increasing the cost of lighting the lamps in this district to twenty-five dollars (\$25) per annum.

The only other contract on file in this Bureau for lighting lamps with gas is one with the Harlem Gas-light Company, for lighting the public lamps in all that portion of the city lying north of a line commencing at the East river, at the foot of Seventy-ninth street, and running parallel with said street to the North river. This contract was made by the Street Commissioner, and not by the Common Council, as in the case of the two former, and was for one year only, or from November 6, 1857, to November 6, 1858. It also contained the same conditions and provisions as those with the New York and Manhattan Companies, excepting that the price for lighting the lamps was to be twenty-eight dollars and eighty cents (\$28.80) per annum for each lamp, and nine dollars and thirty-five cents for fitting up the same. This contract expired by limitation and has never been renewed; the company, however, continued to light the public lamps

under its provisions until September 1, 1864, at which time they demanded higher rates, which this Department was not authorized to allow.

The right to lay mains granted to this company by the Common Council (the grant is hereto annexed, marked "F") differed from the right granted to the New York and Manhattan Gas Companies, inasmuch as it was provided with the two latter companies that before the grant should take effect the companies were to execute contracts with the city for lighting the public lamps in their respective districts, while with the Harlem company no such proviso was required. It will also be perceived that there is no limit expressed in this grant as to the time during which the same was to continue. There is a clause, however, providing that the corporate authorities shall have the right to purchase, at any time from the said company, all the material, pipes, fixtures, buildings, and all the personal and real property owned by them, by paying to the said company the cost of the same, and ten per cent. over and above said cost.

There is a grant to the "Metropolitan Gas-light Company" (a copy of which is hereto annexed, marked "G") giving to the said company the right to lay their mains or pipes in all "the streets, avenues, lanes, alleys, and squares" throughout the city for the period of thirty years, subject only to the same restrictions, as to the mode of laying down said pipes, as apply to the New York and Manhattan Gas-light Companies. It will be seen that there is no provision made therein for the lighting of the public lamps, and consequently the Corporation have no power over them in the matter.

There is also a grant to the "Anthracite Gas-lighting and Heating Company" (a copy of which is annexed, marked "H"), giving to them the right to lay their pipes in all the streets, avenues, and public places throughout the whole city for the period of fifty years. There is no provision in this grant for lighting the public lamps, and, as in the case of the Metropolitan Company, the Common Council are utterly powerless in the matter. This company have not as yet erected any works for the manufacture of gas, and hence are not in operation.

On referring to the reports emanating from this Bureau, it will be perceived that each succeeding Superintendent, since the year 1858, has repeatedly called the attention of the Common Council to the fact that the contracts with the New York and Harlem Gas-light Companies had expired, and has urged upon them the imperative necessity of causing new contracts to be executed. On the 31st of December, 1858, evidently apprehending that some differences might occur between the gas companies and the city, the then Superintendent particularly called attention to the matter, and urged that advertisements and specifications be made, as directed by the Charter, and that no further payments be made to these companies until they had entered into regular contracts with the city. Again, in the report of July 1, 1859, the Superintendent dwelt at length upon the subject. Again, on the 30th of September, 1863, my predecessor wrote upon the matter, and he particularly mentioned the district lying between Forty-second street and Seventy-ninth street. It will be seen that the contract with the Manhattan Gas-light Company only extended to the former street, and there was no

authority to compel them to lay their mains and fit up lamps above that line, although they had cheerfully done so from time to time in accordance with the requests of the Common Council. About this time great delays and difficulties began to occur in getting mains laid in sparsely settled streets. Citizens and property-owners were continually running to this office and to the Common Council with complaints that they were paying taxes for light, but could obtain none; that they had erected new and costly buildings, but could have no gas introduced into the same. Resolutions were from time to time adopted directing gas mains to be laid in various streets in this section of the city, in accordance with the requests of citizens; but, inasmuch as some of the localities were very sparsely settled and consequently there were but few private consumers, and inasmuch as the cost of the iron gas mains, as well as coal and labor, had increased to an enormous extent from the effects of the war, and as the Manhattan Gas-light Company were restricted by their charter to two dollars and fifty cents per one thousand cubic feet, they came to the conclusion that gas could not be manufactured and sold for that price at the then high prices of labor and materials; hence they surrendered all that portion of the city which had been previously lighted by them, lying above Forty-second street, the northern boundary of their district, to the Metropolitan Gas-light Company. This company had just got fairly in operation, and had erected extensive works at the foot of Forty-second street, North river, and, not being restricted as to price, they could demand higher rates from private consumers than the Manhattan Company. The Superintendent called attention to this state of facts, and then recommended that the necessary steps

be taken to have a contract entered into with the Metropolitan Gas-light Company, in order that the lamps might be properly lighted, and the company bound to the proper and faithful performance of the duty required of them.

In the month of January last, in compliance with your directions, and the resolution of the Common Council of December 31, 1864, directing new contracts to be made for the term of one year, I caused to be prepared a form of agreement with specifications for lighting the public lamps in three districts, and the same were submitted to you, and, being approved, advertisements were issued, according to law, calling for proposals to be received on January 18; but, owing to the absence of the Comptroller, the bids remain unopened, and consequently the contracts could not be made. By a comparison of this agreement (a copy of which is annexed, marked "I") with the old contracts of the New York and Manhattan Gas Companies it will be perceived that the interests of the city are better provided for in every respect than in either of the old ones.

It will be observed that in the old contracts all that is called for in the matter of lighting is simply "lighting the public lamps;" not one word is said in regard to cleaning the same, and this alone is an important item. The lamps for a long time back have been in a discreditable condition in this respect, and great difficulty has been experienced in having them properly cleaned. It has been claimed that the gas companies could not be compelled to have the same done, and that the additional expense therefor properly belonged to the city.

The glass for reglazing the broken lamps has been furnished for years by this Department, and the lamplighters have placed the same in the lamps as they became broken. It has been also claimed that they should not be called upon to do this, but that this Department should send out men with the glass and putty to repair all broken lamps wherever situated. If it should unfortunately be decided that such is the case, it would entail a very large expense upon the city, there being at this time nearly seventeen thousand public lamps, and the same extending from the Battery to Kingsbridge.

In the old contracts it was stipulated that all repairs should be at the expense of the parties of the first part. There has been a difference of opinion between this Department and the various gas companies as to the meaning of the term "repairs." It very frequently happens that the service-pipes of the lamps become clogged up with rust, and when the same cannot be cleared with wires or rods the streets have to be opened and the pipes disjointed, and as very many of the pipes in the lower portions of the city have been down a long time serious trouble is caused by the rust. Claims have been made at different times for the above expense, but the same have but seldom been allowed, this Department insisting that the service-pipes should be kept clear by the gas companies, while the companies insist that they should be remunerated for the same.

The same differences exist in regard to the cocks, tubes, and burners which have become worn out, and which the city heretofore have been compelled to replace. So also in regard to the "United States Internal Revenue tax,"

on the gas consumed in the public lamps, which the gas companies have claimed the city should pay.

All these important matters, and many others, are provided for in the new agreement. It will be seen, also, that two sureties, of fifty thousand dollars each, are required for each Lamp District. This was not incorporated in any of the old contracts, and is a very requisite addition.

In my opinion, it was imperatively necessary that some definite and satisfactory arrangement should be established between the Department and the several gas companies for the care and lighting of the public lamps, and more particularly for the district lying between Forty-second street and Seventy-ninth street, as, under existing circumstances, it is almost an impossibility to have gas mains laid and lamps fitted up in sparsely settled streets in that locality, in compliance with the resolutions of the Common Council.

In view of the large appropriation which will be required for this Bureau in case the city should be compelled to pay the increased rates for lighting demanded by the gas companies, I would recommend that some measures be adopted by the Common Council whereby the expense of lighting the city may be materially reduced. This can be done in several ways without any very great inconvenience to the public. There are at this time over three hundred churches in the city, all entitled by law to two lamps in front of each. By resolutions of the Common Council, passed from time to time, many of these churches have succeeded in obtaining three, and sometimes four lamps, and the whole number are lighted every night throughout the year. A large proportion of these churches

hold no evening services at all, while others are open only on Sunday nights; hence I deem it a useless and unnecessary expense to have these lamps lighted in the same manner, and during the same hours, as the ordinary street lamps. There are also two lamps placed in front of several of the public schools, and these should be lighted only during such times as the evening schools are in operation, which is usually about four months of the year.

If the Common Council will adopt a resolution authorizing and directing the Street Commissioner to cause the aforesaid lamps to be lighted at such times only as the same are actually required, the expense can be lessened without serious detriment to the community. The matter might also be taken into consideration as to whether the number of hours during which the public lamps are required to be lighted cannot be diminished, and a large saving effected in this respect.

Very respectfully submitted,

WILLIAM H. CHARLOCK,

Superintendent of Lamps and Gas.

EXHIBIT A.

ABSTRACT OF VOUCHERS, certified by WILLIAM H. CHARLOCK, Superintendent of Lamps and Gas, on account of the appropriation for Lamps and Gas for the year 1865, for the Quarter ending June 30, 1865.

DATE OF VOUCHER.	NO. OF VOUCHER.	NATURE OF EXPENDITURE.	TO WHOM PAID.	AMOUNT.
1865.

D.

CONTRACT WITH THE NEW YORK GAS-LIGHT COMPANY.

ARTICLES OF AGREEMENT, indented, made, and concluded, this twelfth day of May, in the year of our Lord one thousand eight hundred and twenty-three, between the Mayor, Aldermen and Commonalty of the city of New York, of the first part, and the New York Gas-light Company, of the second part :

Witnesseth, That the said parties of the first part, for and in consideration of the covenants, articles, and agreements hereafter mentioned on the part of said parties of the second part and their successors, to be observed, performed, and kept, do hereby grant, demise, and to farm let to the said parties of the second part and their successors, all and singular the sole and exclusive privilege and right of laying or placing under ground pipes in all and every of the public streets and parts of streets in the city of New York, lying and being south of a line commencing at the East river, at the foot of Grand street, and running through Grand street to Sullivan street, and through Sullivan street to Canal street, and through Canal street to the North or Hudson river, for conducting gas for lighting the public lamps in the streets and parts of streets south of said line, and the houses and buildings fronting or to front on, or bounded by or adjacent to, the streets or parts of streets south of said line, to have and to hold and to enjoy the same, unto the said parties of the second part and their successors from the day of the date of these presents, for and during and until the twelfth day of May which will be in the year of our Lord one thousand eight hundred and fifty-three; provided, nevertheless, and this grant is upon

this express condition, that the said parties of the second part and their successors shall and do in all things well and sufficiently keep, perform, and observe all and singular the covenants, articles, agreement and stipulations on their part to be kept, performed, and observed as hereinafter is set forth and agreed; and the parties of the second part, in consideration of the premises, do for themselves and their successors covenant and agree to and with the said parties of the first part and their successors, as follows: that is to say, that they, the said parties of the second part, shall and will, before the twelfth day of May, in the year of our Lord one thousand eight hundred and twenty-five, erect, establish, and complete, in the said city of New York, good and sufficient buildings, works, and apparatus for the preparing and manufacture of gas, and that they will also cause the pipes for conducting the same and of sufficient capacity to be laid, and will also manufacture or cause to be manufactured and supplied, in the most approved manner, sufficient quantities of the best quality gas commonly called inflammable gas, for lighting the houses and public lamps in the street called Broadway, in the said city, from the Battery to Grand street, in the manner hereinafter mentioned; and also, moreover, that they, the said parties of the second part, shall and will at all times from and after the twelfth day of May, in the year of our Lord one thousand eight hundred and twenty-eight, and during the residue of the term of this grant, in like manner cause the pipes of sufficient capacity for conducting the said gas to be laid, and will also manufacture or cause to be manufactured and supplied, in the most approved manner, sufficient quantities of the said gas, of the best quality, for well and sufficient lighting the streets and parts of the streets and

public places, and the public lamps in the streets, and houses adjoining or to adjoin all and singular the streets and parts of streets lying in the said city south of the aforesaid line, at such periods as the said parties of the first part shall from time to time, after the said twelfth day of May, in the year of our Lord one thousand eight hundred and twenty-eight, by resolution or by law, reasonably require of the said parties of the second part, and that all such pipes to be furnished by the said parties of the second part, and placed under ground for the purpose of conducting the said gas in all or either of the said streets or parts of streets, shall be made and constructed in the most approved manner of cast iron of the best materials; and, also, that the said parties of the second part shall and will light such and so many of the public lamps, with the best quality of gas, as are in the streets or parts of streets of the said city south of aforesaid line whenever they may be required to light the same or any number of the same by the said parties of the first part or their successors, the said lamps to be lighted during such times as the public lamps are now required to be lighted, and in the streets or parts of streets in which the pipes for conducting gas shall be laid according to these presents, at a yearly expense to the said parties of the first part not exceeding what would be the expense of lighting and supplying an equal number of the said lamps with oil of the quality generally used for that purpose, estimating the price of oil at the average price of the same in the city of New York during the preceding year.

And, further, that the said parties of the second part shall likewise furnish, at their own expense, the necessary conductors of metal, of sufficient capacity, to the lamp-posts, that the light of the said lamps shall be of a quality,

brilliancy, or intensity equal to the gas in use for the public lamps in the city of London; the said parties of the first part, however, to be at the expense of lamps, lamp-irons, lamp-posts, and fittings up, and at no other expense for fixtures, conductors, repairs, or on any other account whatsoever; and, also, that the parties of the second part shall and will at all times give forty-eight hours' notice to the said parties of the first part, or to their Street Commissioner, of their intention to break up or open any street or part of a street for the purpose of laying or repairing the pipes to conduct the gas, and that they will replace the earth which they may remove in so doing before sunset of the day on which such opening shall be made, and that they will replace the pavements, and repave and repair the same, in such reasonable time and manner as the said parties of the first part, or their Street Commissioner, may direct, and in as good and firm a manner as the streets were in before broken for the aforesaid purpose; and, further, that all such repairs as shall at any time become necessary, by reason of the said pipes and conductors, shall always be made and done by the said parties of the second part at their own cost and expense; and, also, that the said parties of the second part will so conduct their manufactory or manufactories of gas as not to create a nuisance, and that they will in all things be governed by such reasonable and necessary rules and regulations as the said parties of the first part or their successors may from time to time pass, ordain, and establish relative to the opening of streets and laying down the pipes and conductors aforesaid; provided, always, that nothing in this grant contained shall be construed to prevent any person or persons residing on, adjacent, or near to any of the said streets or parts of streets in

the said city, south of the aforesaid line, from erecting in or on his or their own premises any buildings or apparatus to light with gas his or their own house or manufactory ; and provided, further, and the premises hereby granted are also upon this express condition, anything herein contained to the contrary notwithstanding, that if the said parties of the second part or their successors shall not well and faithfully observe, perform, fulfill, and keep all and singular the covenants and conditions above contained, on their part and behalf to be observed, performed, fulfilled, and kept, according to the full intent and meaning of these presents, then and in that case it shall and may be lawful for the said parties of the first part, in Common Council convened, by a resolution, to annul and vacate this grant, and thereupon the premises hereby demised shall be revested in the said parties of the first part or their successors, as fully and completely as if this indenture had never been executed.

In witness whereof, to one part of this indenture, remaining with the said parties of the first part, the said parties of the second part have caused the common seal of the said the New York Gas-light Company to be affixed, and to the other part thereof, remaining with the said parties of the second part, the said parties of the first part have caused the common seal of the city of New York to be affixed, the day and year above written.

By the Common Council,

[L. S.]

STEPHEN ALLEN,

Mayor.

J. MORTON, *Clerk.*

September 12, 1831.

The New York Gas-light Company, by

W. W. FOX,

President.

E.

CONTRACT WITH MANHATTAN GAS-LIGHT COMPANY.

This Indenture, made the fifth day of May, in the year of our Lord one thousand eight hundred and forty-eight, between the Mayor, Aldermen and Commonalty of the city of New York, of the first part, and the Manhattan Gas-light Company, of the second part, witnesseth: That the said parties of the first part, for and in consideration of the covenants, articles, and agreements hereinafter mentioned, on the part of the said parties of the second part and their successors to be observed, performed, and kept, do hereby grant and demise to the said parties of the second part and their successors the privilege and right to lay or place under ground pipes in any and all the streets, avenues, and public places of the city of New York, comprised between a line commencing at the East river, at the foot of Grand street, and running through the middle of Grand street to Sullivan street, and through the middle of Sullivan street, from Grand street, to Canal street, and through the middle of Canal street, from Sullivan street, to the North or Hudson river, and a line commencing at the East river, at the foot of Forty-second street, on the north side thereof, and running parallel with said street to the North or Hudson river, and embracing both sides of said street, and in any or every part of any such street, avenue, or public place, for the purpose of conducting gas, commonly called inflammable gas, for lighting the public lamps in the said streets, avenues, and public places and parts thereof as hereinafter mentioned, and for lighting the houses and buildings fronting or to front on, or bounded by or adjacent to, the said streets, avenues, and public places or parts thereof, to have, hold, use, and enjoy the said right and privilege unto

the said parties of the second part and their successors, from the day of the date of these presents until the fifth day of May which will be in the year one thousand eight hundred and sixty-eight. Provided always, and these presents are upon this express condition, that they, the said parties of the second part and their successors, shall and do in all things well and sufficiently keep and perform and observe all and singular the covenants, articles, agreements, provisions, and stipulations on their part to be kept, performed, and observed as hereinafter specified. And the said parties of the second part, in consideration of the premises, do, for themselves and their successors, covenant and agree, to and with the said parties of the first part and their successors, as follows, that is to say: that any gas-house or works for the manufactory of such gas, which the said parties of the second part hereafter may use or erect and establish in the city of New York, shall be located, erected, and established on the margin of either the Hudson or the East river, and not south of Fourteenth street in the said city, and that all pipes for conducting the gas which the said parties of the second part may cause to be laid shall be of sufficient capacity, and made and constructed of the best material of cast-iron, and in the most approved manner. That the said parties of the first part shall have the right to order the pipes called the mains of the Company to be extended in and along all the streets, avenues, and public places in the said city within the limits aforesaid, commencing at Grand and Canal streets, and continuing through each street in regular succession. Provided, however, that the said parties of the second part shall not be compelled to expend in the laying of said mains as last aforesaid, during the continuance of this con-

tract, a yearly sum to exceed six thousand dollars. Also, that the said parties of the second part shall fit up and light all the public lamps required by the Corporation, wherever the pipes of the Company are or shall be laid within the district aforesaid, and that the said lamps shall be so lighted during such times as the public lamps throughout the city of New York are required to be lighted by the regulations of the said parties of the first part, and that all such public lamps situated within the district aforesaid shall be so supplied and lighted by the said parties of the second part at the yearly rate of fifteen dollars for each lamp for the light and for lighting and extinguishing the same. Also, that the said parties of the first part may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted and kept burning at any other time or times during the continuance of this contract, and the said parties of the second part shall light the same and continue them burning in accordance with any and every direction of the said parties of the first part, or their proper agent or agents, to that effect.

Provided, that if, in compliance with the direction of the said parties of the first part, the whole number of hours during which the said lamps, or a portion of them, are kept burning in any year shall exceed the average number of hours during which the public lamps in the city of New York have been kept burning during the last five years prior to the date of this contract (which the parties hereto estimate to be and fix at two thousand three hundred hours), then, in that case, the said parties of the second part shall be entitled to claim and receive for such additional number of hours during which the public lamps, or a portion of them, in the district aforesaid, are kept burn-

ing, in accordance with such direction of the said parties of the first part, an additional compensation, equivalent to a *pro rata* increase of the compensation hereinbefore allowed, proportioned to the increased number of hours beyond the said average number.

The burners in the public lamps shall be equal to those heretofore used in the city of New York, equal to an average consumption of three cubic feet an hour. And it is further agreed that the said parties of the second part shall furnish at their own expense the necessary conductors of metal, of sufficient capacity, to the lamp-posts of such public lamps as they may be required to supply with gas and light as aforesaid. The parties of the second part shall also fit up the said public lamps, and shall receive as compensation therefor the sum of five dollars for each lamp so fitted up. It is agreed, however, that the cost of the posts lanterns, and repairs shall be at the expense of the said parties of the first part; and it is further agreed that the said parties of the second part shall have the right to lay pipes at any time within the said district upon giving forty-eight hours' notice to the said parties of the first part, or to the Street Commissioner, of their intention to break up or open any street, avenue, or public place, or part thereof, or to remove any part of the pavement thereof, for the purpose of laying or repairing the pipes, to conduct the said gas, and that they will replace the earth which they may remove in so doing before sunset of the day in which such opening shall be made, and that they will replace the pavement, and repave and repair the same, in such reasonable time and manner as the said parties of the first part, or their Street Commissioner, may direct, and in as good and firm a manner as such street, avenue, or public place, or

parts thereof, were in before being broken up for the purpose aforesaid. Also, that all such repairs as shall at any time become necessary by reason of laying the said pipe or conductors shall be made and done by said parties of the second part, at their own cost and expense. Also, that no such street, avenue, or public place, or part thereof, shall so be broken up or opened, or the pavement thereof removed, or shall be again filled up or repaved, except under the direction and supervision of a competent person, to be appointed by the said Street Commissioner; but the said parties of the second part shall not be called upon to pay any sum to any party or parties for the inspection of any pavement which they may have occasion to replace.

And it is further agreed that the said parties of the second part shall and will so conduct the manufactory or manufactories of gas as not to create a nuisance, and that they will in all things be governed by such reasonable and necessary rules and regulations as the said parties of the first part or their successors may from time to time pass, ordain, and establish relative to the opening of such streets, avenues, or public places, or parts thereof, and laying down the pipes and conductors aforesaid. And it is hereby expressly provided that nothing herein contained shall be construed or deemed as granting to the said parties of the second part any sole or exclusive right or privilege, or as preventing the said parties of the first part from granting the like privileges as are hereby given to the said parties of the second part to any other company, persons, or parties whatsoever, or as preventing any person or persons residing in or adjacent or near to any of said streets, avenues, or public places, or parts thereof,

lying north of the line hereinbefore first mentioned, from erecting in or upon his or their own premises any building or apparatus to light with gas his or their own house, store, or manufactory, or premises. And it is further covenanted, and agreed, by and on the part of the said parties of the first part, that the said parties of the first part and their successors shall and will pass all needful ordinances which shall be necessary to protect the interests of the said parties of the second part, and which of right ought to be passed for that purpose.

And it is further provided, and these presents are upon the express condition, that if the said parties of the second part or their successors shall not well and truly observe, perform, and fulfill, and keep all and singular the covenants and conditions hereinbefore contained, on their part and behalf to be observed, performed, fulfilled, and kept, according to the true intent and meaning of these presents, then and in that case it shall and may be lawful for said parties of the first part, by a resolution or order to be passed in Common Council, to annul and vacate this grant, and thereupon the premises hereby demised shall be revested in the said parties of the first part or their successors, as fully and completely as if this indenture had never been executed.

In witness whereof to one part of this indenture remaining with the said parties of the first part, the said parties of the second part have caused the common seal of the said the Manhattan Gas-light Company to be affixed, and to the other part thereof remaining with the

said parties of the second part, the said parties of the first part have caused the common seal of the city of New York to be affixed, the day and year above written.

(Signed)

W. V. BRADY,

Mayor.

By the Common Council,

(Signed)

[L. S.]

D. T. VALENTINE,

Clerk of Common Council.

To the counterpart held by the Corporation of the city is attached the common seal of the Manhattan Gas-light Company, verified by the signatures respectively of the President,

DAVID C. COLDEN.

And Secretary

S. H. HOWARD.

[L. S.]

F.

GRANT TO THE HARLEM GAS-LIGHT COMPANY.

Resolved, That the consent of the Mayor, Aldermen and Commonalty of the city of New York is hereby given to "The Harlem Gas-light Company" to lay conductors for conducting gas through the streets, avenues, lanes, alleys, and squares, in all that portion of the city lying north of the centre line of Seventy-ninth street, for the purpose of supplying gas to public and private buildings, in consideration of the following articles being faithfully complied with.

First. The said Company shall not impede or interrupt public travel in the laying of such mains more than can-

not possibly be avoided; and shall, after opening any street, lane, alley, or square, and depositing their mains, restore the same to as good condition as the same was before such opening, and be at all times subject to such restrictions, ordinances, and resolutions as the Common Council of said city may from time to time adopt, and under the control of the Street Department of said city.

Second. They shall furnish a supply of gas to all persons who may desire the same, and shall deprive no consumer of gas, upon their refusal to pay, or for a dispute of the bill rendered, until they have served such disputant with the affidavit of their inspector as to the correctness of the register of their meter, and that all the gas for which said disputants are charged has actually passed through said meter.

Third. The Mayor, Aldermen and Commonalty of said city hereby reserve the right to purchase at any time from the said Company all the materials, pipes, fixtures, buildings, and all and singular all the personal and real property owned by said Company, by paying to the said Company the cost of the same, and ten per cent. over and above said cost.

Fourth. The permission herein granted is upon the express condition that said Company shall proceed immediately, or within one year from the approval by the Mayor of the resolution, to lay their mains in the district as embraced in this grant, and supply, at least within two years from its passage, gas to be used by the corporate authorities or private consumers.

Fifth. The said Company shall be exempt from taxation on their personal property for the period of three years

from the organization of said corporation, pursuant to the power granted for this purpose by the eighteenth section of "An Act to authorize the formation of Gas-light Companies," passed by the Legislature of the State of New York, February 16, 1848.

Sixth. The Mayor, Aldermen and Commonalty also retain the right to revoke any and all permission which may be herein granted, upon satisfactory proof being afforded of a failure of the said "Harlem Gas-light Company" to comply with these conditions as herein expressed, or of any neglect to comply with any resolution or ordinance which may be hereafter adopted; and nothing herein contained shall be construed as giving any exclusive permission whatever to the said Harlem Gas-light Company.

Adopted by the Board of Aldermen, March 25, 1855.

Adopted by the Board of Councilmen, April 23, 1855.

Approved by the Mayor, April 25, 1855.

(Signed)

D. T. VALENTINE,

Clerk of Common Council.

By JOHN H. CHAMBERS,

Deputy.

C.

GRANT TO METROPOLITAN GAS-LIGHT COMPANY.

Resolved, That permission be, and the same is hereby given to the Metropolitan Gas-light Company of the city of New York, to lay pipes for conducting gas through the streets, avenues, lanes, alleys, and squares in said city, for

the period of thirty years; to be subject to the same restrictions as to the mode of laying down said conductors as apply to and govern the New York and Manhattan Gas-light Companies in that respect.

Adopted by the Board of Councilmen, June 9, 1858.

Adopted by the Board of Aldermen, June 10, 1858.

A message from his Honor the Mayor, vetoing the same, was received by the Board of Councilmen, June 21, 1858.

By Board of Councilmen, December 20, 1858, taken up, considered, and adopted, notwithstanding the objections of the Mayor thereto, two-thirds of all the members elected to said Board voting in favor thereof.

By Board of Aldermen, December 21, 1858, laid on the table.

By Board of Aldermen, December 22, 1858, taken up, and adopted, notwithstanding the objections of the Mayor thereto, two-thirds of all members elected to said Board voting in favor thereof, therefore, under the provisions of the Charter of 1857, the same became adopted.

(Signed)

D. T. VALENTINE,

Clerk of Common Council.

H.**GRANT TO THE "ANTHRACITE GAS-LIGHTING AND HEATING
COMPANY."**

Resolved, That there be, and hereby is, granted to the Anthracite Gas-lighting and Heating Company of New York the right to lay pipes and mains for conducting gas for illuminating and heating, and other purposes, through the streets, avenues, lanes, alleys, squares, and other public places in the city of New York, for a period of fifty years, as provided by the General Manufacturing Laws of the State of New York, the said conductors to be laid under the supervision of the Street Commissioner; the said Company being required to restore the streets opened by them for laying such pipes to the same condition as before the said pipes and mains were laid.

Adopted by the Board of Councilmen, June 18, 1863.

Adopted by the Board of Aldermen, June 22, 1863.

By Board of Councilmen, July 6, 1863, received from his Honor the Mayor, with his objections thereto.

By Board of Councilmen, August 5, 1863, taken up and adopted, notwithstanding the objections of his Honor the Mayor.

By Board of Aldermen, September 17, 1863, taken up, and the above action of the Board of Councilmen concurred in, two-thirds of all the members elected having voted in favor thereof, therefore, under the provisions of the amended Charter of 1857, the same became adopted.

(Signed)

D. T. VALENTINE,
Clerk of Common Council.

I.

FORM OF NEW AGREEMENT.

This Agreement, made, entered into, and concluded, this
in the year one thousand eight
hundred and sixty-five, by and between the Mayor, Alder-
men and Commonalty of the city of New York, by Charles
G. Cornell, their Street Commissioner, parties of the first
part, and of said city, parties
of the second part :

Witnesseth, That the said parties of the first part, for and
in consideration of the covenants, articles, and agreements,
hereinafter mentioned, on the part of the said parties of
the second part, and their successors, to be observed, per-
formed, and kept, do hereby grant and demise to the said
parties of the second part, and their successors, the privi-
lege and right to lay, or place under ground, pipes in any
and all the streets, avenues, and public places of the city
of New York, comprised between a line, commencing at
the East river, at the foot of Seventy-ninth street, and run-
ning through the middle of said Seventy-ninth street to
the North or Hudson river ; thence along said river to the
northern boundary of the city and county of New York ;
thence along said northern boundary of the city and county
of New York to the East river ; and thence along said
East river to the point of beginning ; and in any or every
part of any such street, avenue, or public place, within
the district aforesaid, for the purpose of conducting illum-
inating gas, for lighting the public lamps in the said streets,
avenues, and public places, and parts thereof, as hereinafter
mentioned, and for lighting the houses and buildings situ-
ated within the district aforesaid. To have, hold, use, and
enjoy the said right and privilege, unto the said parties of

the second part, and their successors, from the day of the date of these presents, until the

in the year one thousand eight hundred and sixty-six. Provided always, and these presents are upon this express condition, that they, the said parties of the second part, and their successors, shall and do, in all things, well and sufficiently keep, perform, and observe, all and singular, the covenants, articles, agreements, provisions, and stipulations, on their part, to be kept, performed, and observed. as hereinafter specified. And the said parties of the second part, in consideration of the premises, do, for themselves and their successors, covenant and agree, to and with the said parties of the first part, and their successors, as follows: that is to say, that any gas house or works for the manufacture of such gas, which the said parties of the second part hereafter may use, or erect and establish, in the city of New York, shall be located, erected, and established on the margin of either the North or Hudson river, or the Harlem or East river, and not south of Fourteenth street, in the said city, and that all pipes for conducting the gas, which the said parties of the second part may cause to be laid, shall be of sufficient capacity, and made and constructed of the best materials of cast-iron, and in the most approved manner.

That the said parties of the first part shall have the right to order the pipes, called the mains of the company, to be extended in and along all the streets, avenues, and public places in the said city, within the limits aforesaid. Provided, however, that the said parties of the second part shall not be compelled to expend, in the laying of said mains, as last aforesaid, during the continuance of this contract, a yearly sum to exceed twelve thousand dollars.

And it is also further agreed that the said parties of the second part, for the consideration hereinafter mentioned and contained, and under the penalty expressed in a bond bearing even date with these presents, and hereunto annexed, will furnish the best quality of gas to, and will light, clean, and reglaze all the public lamps lying within the district aforesaid, and repair the lamp-posts thereof, and will fit up new lamps wherever the mains of the company are or shall be laid, when required so to do by the parties of the first part, for the term of one year, in accordance with the following

SPECIFICATIONS :

Lighting.—The lamps shall be lighted during such times as the public lamps throughout the city of New York may be required to be lighted, by the regulations of the said parties of the first part, in accordance with a time-table to be furnished by the Street Commissioner, or his regularly appointed agent. Also, that the said parties of the first part may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted, and kept burning, at any other time or times during the continuance of this contract; and the said parties of the second part shall light the same, and continue them burning, in accordance with any and every direction of the said parties of the first part, or their proper agent, to that effect : Provided that, if, in compliance with the direction of the said parties of the first part, the whole number of hours, during which the said lamps, or a portion of them, are kept burning, shall exceed the average number of hours during which the public lamps throughout the city have been kept burning during the last five years prior to the date

of this contract (which the parties hereto estimate to be and fix at thirty-eight hundred and thirty-three hours and twenty minutes), then, in that case, the said parties of the second part shall be entitled to claim and receive, for such additional number of hours during which the public lamps, or any portion of them, in the district aforesaid, are kept burning in accordance with such direction of the said parties of the first part, an additional compensation, equivalent to a *pro rata* increase of the compensation hereinafter allowed, proportioned to the increased number of hours beyond the said average number. The parties of the second part to keep the service-pipes of said lamps cleaned out, at their own cost and expense.

Burners.—The burners in the public lamps shall be equal to those heretofore used in the city of New York, equal to an average consumption of three cubic feet per hour under a pressure of one inch.

Cleaning.—All the lamps to be kept in a cleanly condition, and shall be cleaned at least once a week, and oftener, if necessary.

Reglazing.—The lamps to be reglazed within twenty-four hours after the same shall be found broken. The glass and putty for that purpose to be furnished by the parties of the first part to the parties of the second part at their works.

Repairing Lamp-posts.—All lamp-posts which may require to be straightened, or columns to be releaded, or stand-pipes to be refitted, to be repaired within twenty-four hours after being notified of the same by the parties of the first part.

Removing Lamp-posts.—All lamp-posts to be taken down which may require to be removed for any purpose.

Cocks, Tubes, and Burners.—The cocks, tubes, and burners, which may become worn out and useless, to be replaced by the parties of the second part, at their own cost and expense.

Fitting up New Lamps.—New lamps to be fitted up in any street, avenue, or public place within the aforesaid district, wherever the same may be required, by the said parties of the first part. The parties of the second part to furnish the necessary conductors of metal to the lamp-posts of each public lamp that may be required, the service pipe leading from the gas mains to the lamp-post, and the stand-pipe of the lamp-post to consist of three-quarter inch pipe, and will make all necessary connections with such conductors and the street mains, to supply with gas and light the lamps as aforesaid. It is agreed, however, that the lamp-posts, lanterns, and lamp-irons shall be furnished by the said parties of the first part, and shall be delivered to the said parties of the second part at their works.

Cross-heads and Lamp-irons.—The cross-heads and lamp-irons which may become broken or out of order to be replaced by the parties of the second part at their own cost and expense. The cross-heads and lamp-irons for that purpose to be furnished by the parties of the first part to the said parties of the second part at their works.

And it is also further agreed, by and between the parties to these presents, that, for and in consideration of the

faithful performance of and compliance with the conditions, stipulations, and covenants hereinbefore mentioned and contained, on the part and behalf of the parties hereto of the second part, to be performed, fulfilled, and kept, the said parties hereto of the first part will pay or cause to be paid to the parties of the second part the sum of per annum for each lamp, for the gas, and for the lighting, cleaning, and reglazing of the same, and replacing the cocks, tubes, and burners, and cross-heads and lamp-irons thereto. Also, the sum of for each and every lamp-post which may be straightened, or column reloaded, or stand-pipe refitted. Also the sum of for each and every lamp-post which may be removed. Also the sum of for each and every lamp fitted up.

United States Revenue Tax.—And it is hereby agreed, by and between the parties to these presents, that the parties of the first part shall not be called upon to pay to the said parties of the second part any amount for any tax which the Government of the United States may assess upon the gas consumed by the public lamps within the district aforesaid.

And it is further agreed that the said parties of the second part shall have the right to lay pipes at any time, within the said district, upon giving forty-eight hours' notice to the said parties of the first part, or to the *Croton Aqueduct Department*, of their intention to break up or open any street, avenue, or public place, or part thereof, or to remove any part of the pavement thereof, for the purpose of laying or repairing the pipes to conduct the said gas, and that they will replace the earth which they may remove in so doing before sunset of the day on which such open-

ing shall be made, and that they will replace the pavement, and repave and repair the same, in such reasonable time and manner as the said parties of the first part may direct, and in as good and firm a manner as such street, avenue, or public places, or parts thereof, were in before being broken up for the purpose aforesaid. Also, that all such repairs as shall at any time become necessary to said pavement, by reason of laying the said pipe or conductors, shall be made and done by said parties of the second part, at their own cost and expense. Also, that no such street, avenue, or public place, or part thereof, shall be so broken up or opened, or the pavement thereof removed, or shall be again filled up or repaired, except under the direction and supervision of a competent person, to be appointed by the said parties of the first part; but the said parties of the second part shall not be called upon to pay any sum, to any party or parties, for the inspection of any pavement which they may have occasion to replace. And it is further agreed that the said parties of the second part shall and will so conduct the manufactory or manufactories of gas as not to create a nuisance, and that they will in all things be governed by such rules and regulations as the said parties of the first part, or their successors, may from time to time pass, ordain, and establish, relative to the opening of such streets, avenues, or public places, or parts thereof, and laying down the pipes and conductors, and lighting the lamps aforesaid. And it is hereby expressly provided that nothing herein contained shall be construed or deemed as granting, to the said parties of the second part, any sole or exclusive right or privilege, or as preventing the said parties of the first part from granting the like privileges as are hereby given to the said parties of the

second part to any other company, persons, or parties whatsoever, or as preventing any person or persons, residing in or adjacent, or near to any of the said streets, avenues, or public places, or parts thereof, lying within the district hereinbefore mentioned, from erecting, in or upon his or their own premises, any building or apparatus to light with gas his or their own house, store, or manufactory, or premises.

And it is hereby further agreed that, in case the said parties hereto of the second part shall fail or neglect to keep the covenants herein contained, or to light, repair, and fit up the public lamps as before mentioned, that it may be lawful for the Street Commissioner to cause such work to be performed by other parties, and to deduct the expense thereof from any moneys which may be due or may become due to the parties of the second part, and to hold the parties of the second part and their sureties liable for the amount which may be in excess of the prices stipulated in this agreement.

And it is further provided, and these presents are upon the express condition, that if the said parties of the second part, or their successors, shall not well and truly observe, perform, and fulfill, and keep all and singular the covenants and conditions hereinbefore mentioned and contained, on their part and behalf to be observed, performed, fulfilled, and kept according to the true intent and meaning of these presents, then, and in that case, it shall and may be lawful for the said parties of the first part, by a resolution or order, to be passed in Common Council, to annul and vacate this grant; and thereupon the premises hereby demised shall be revested in the said parties of the first part,

or their successors, as fully and completely as if this agreement had never been executed.

And the parties hereto declare that this contract is made with reference to the proposals hereto annexed, which are to be taken as part and parcel of these presents.

In witness whereof, the said Charles G. Cornell, Street Commissioner, hath hereunto set his hand and seal on behalf of the said parties of the first part; and the said parties of the second part have also set their hand and seal; and the said Street Commissioner, and parties hereto of the second part, have executed triplicate copies hereof, one of which to remain with the said Street Commissioner, one other to be filed with the Comptroller of the city of New York, and the third to be delivered to the said parties hereto of the second part, the day and date herein first above written.

Street Commissioner.

Respectfully submitted,

JAMES L. MILLER,

Superintendent of Repairs and Supplies.

STREET DEPARTMENT,
BUREAU OF REPAIRS AND SUPPLIES,
DEPUTY SUPERINTENDENT'S OFFICE, }

NEW YORK, June 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In accordance with directions contained in your Circular Letter of June 16th, I herewith transmit the Second Quarterly Report for this year, showing the business done in this Bureau for the quarter ending June 30, 1865.

In statement marked "A" you have an account, in detail, showing the amount furnished each office and department with which this Bureau has transacted business for the second quarter of the year 1865, beginning April 1, and ending June 30.

In statement "B" will be seen the appropriations from which I have been permitted to draw, as well as the amounts for the first and second quarters, the total amounts for the six months, and balances unexpended, over which this Bureau has exclusive control.

All of which is respectfully submitted.

CHARLES BOICE,

Dept. Supt. of Repairs and Supplies.

"A."

STATEMENT, showing the amount charged each Public Office and Department of the city of New York by the Deputy Superintendent of Repairs and Supplies, for the Second Quarter of the year 1865, ending June 30.

OFFICE CHIEF ENGINEER FIRE DEPARTMENT, }
21 ELIZABETH STREET, }

NEW YORK, June 30, 1865.

CHAS. G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with instructions contained in your Circular Letter of the 16th instant, I herewith transmit a detailed statement of all business transacted by this Bureau during the second quarter of the year 1865, including the mouths of April, May, and June.

The total amount of expenditures during the past quarter is one hundred and fifteen thousand five hundred and sixty-seven dollars and sixty-one cents (\$115,567.68).

At the last session of the Legislature of this State a law was passed creating a Metropolitan Fire District in this city and county, and establishing a Metropolitan Fire Department, therein thus abolishing the volunteer system. Four Commissioners were appointed by the Governor, under whose control the Fire Department is at present ; my connection, therefore, as chief officer of a Bureau in the Street Department ceases from this date. I have, however, volunteered my services to the Metropolitan Fire Commissioners until August 1, 1865, to assist them in the extinguishment of fires and the reorganization of the Department, which offer I intend faithfully to carry into effect.

I shall, at the earliest opportunity, transfer to your office all books, papers, documents, &c., having any reference to the business transactions of this Bureau with your Department.

This being the last official communication I shall transmit to your Department, I consider it my duty at this time to express to you as Street Commissioner, to Mr. Tweed as Deputy, to Mr. Ely as Chief Clerk, and to all the heads of the various bureaux in the Street Department, and to all the other attachés with whom I have had business connections, my sincere thanks for the uniform kindness and attention shown to me during the time I have had the honor to hold the position of Chief Engineer of the Volunteer Fire Department of this city.

Very respectfully,

JOHN DECKER,

Chief Engineer.

ABSTRACT of Vouchers certified by JOHN DECKER, Chief Engineer, during
the Second Quarter of the year 1865, ending June 30.

ANNUAL REPORT
OF THE
CHIEF ENGINEER
OF THE
FIRE DEPARTMENT

OF THE
CITY OF NEW YORK:

TRANSMITTING STATEMENT OF THE FORCE OF THE DEPARTMENT; FIREMEN'S CERTIFICATES—AMOUNT OF MONEY RECEIVED THEREFOR, AND PAID OVER TO THE TREASURER OF THE FIRE DEPARTMENT FUND; NUMBER OF FIRES AND ALARMS, AND AMOUNT OF DAMAGE SUSTAINED IN EACH MONTH; THE NAMES, OCCUPATIONS, BADGE NUMBERS, AND RESIDENCES OF MEMBERS OF THE FIRE DEPARTMENT, CONDITION OF THE HOUSES AND APPARATUS, AS THEY APPEAR ON THE BOOKS OF THE CHIEF ENGINEER, JUNE 1, 1865; ALSO, SUGGESTIONS WITH REGARD TO ROSE COUPLINGS, UNIFORMITY IN THE CONSTRUCTION OF FIRE APPARATUS, THE NECESSITY FOR ADDITIONAL FIRE HYDRANTS, &c., &c.

DOCUMENT No. 15.

NEW YORK:
EDMUND JONES & CO., PRINTERS TO THE CORPORATION,
No. 26 JOHN STREET.
1865.

DOCUMENT No. 15.

BOARD OF ALDERMEN,

DECEMBER 12, 1865.

The following communication, being the Annual Report of the Chief Engineer of the Fire Department, was received, and ordered to be printed in Document form.

D. T. VALENTINE,

Clerk.

OFFICE CHIEF ENGINEER FIRE DEPARTMENT, }
No. 21 ELIZABETH STREET, }

NEW YORK, June 30, 1865.

To the Honorable the Common Council:

GENTLEMEN—In accordance with section four of the “Ordinance for the better regulation of the Firemen of the city of New York,” approved December 24, 1864, I herewith transmit a report of this Department, embracing a statement of the names, occupation, residences, and badge register-numbers of the members of the Fire Department; the names, position, and residences of its officers; the losses sustained by fire, together with an inventory of the various

articles in the possession of each company, and a recapitulation of the same, giving the total of the several articles transferred to the Board of Metropolitan Fire Commissioners.

Several of the articles enumerated in the inventory were not furnished by this Bureau ; the Chief Engineer has had no control whatever over the distribution of chairs, tables, gas-fixtures, &c. I have, however, included them in the inventory, in order to show the total amount of property of all descriptions transferred by the proper authorities to the Board of Metropolitan Fire Commissioners.

On the 30th day of March, 1865, the Legislature of this State passed an act entitled "An Act to create a Metropolitan Fire District, and establish a Fire Department therein," and on the 31st day of the same month I sent to your Honorable Body the following communication :

OFFICE CHIEF ENGINEER FIRE DEPARTMENT, }
 NO. 21 ELIZABETH STREET, }
 NEW YORK, March 31, 1865.

To the Honorable the Common Council :

GENTLEMEN—The Legislature of this State has passed an act creating a "Metropolitan Paid Fire Department" in the city and county of New York ; said act authorizes the Governor to appoint four Commissioners, who shall take possession of all property, tools, implements, &c., now in possession of the present Department.

All property, apparatus, &c., being under the sole con-

trol of your Honorable Body, I await your instructions before taking any action in this matter. Anticipating an early reply, I remain, very respectfully,

Your obedient servant,

JOHN DECKER,

Chief Engineer Fire Department.

To which, on April 1, I received the following reply, with preamble and resolution attached :

OFFICE OF CLERK OF COMMON COUNCIL, }
NO. 8 CITY HALL, }

NEW YORK, April 1, 1865.

JOHN DECKER, Esq., *Chief Engineer Fire Department :*

DEAR SIR—In connection with your communication to the Common Council, under date of March 31, the following preamble and resolution was passed by the Board of Aldermen, to which, on behalf of said Board, we would most respectfully call your attention, and ask the most careful consideration of the officers and members of the volunteer organization of the New York Fire Department.

(Signed)

GEORGE JEREMIAH,

LEWIS R. RYERS,

WM. H. GEDNEY,

*Special Committee on the part
of the Board of Aldermen.*

The following is a copy of the preamble and resolution referred to in the above communication :

“ *Whereas*, The Legislature of this State has just passed an act which substitutes the paid system in place of the

present volunteer organization of the Fire Department in this city ; and

“Whereas, Some time must necessarily elapse ere this new system can be properly or efficiently placed in a position to meet all that would be required therefrom, in respect to the full protection of the lives and property of the citizens ; and

“Whereas, In the interregnum that must exist between the present time and the arranging of said system, in such a way as to be at all equal in efficiency to the present volunteer organization, much suffering, and, it may, be loss of life, would ensue in case of a disastrous conflagration, nine-tenths of the community living and having their little all in places peculiarly subject thereto, unless the present volunteer organization still continue in active service ; therefore,

“Resolved, That the Common Council of the city of New York would most earnestly urge upon the officers and members of the New York Fire Department the public necessity of their still containing their former energetic and humane efforts in arresting on all occasions, as heretofore, the progress of the devouring element, thereby not only preventing thousands of helpless women and children from being rendered homeless and destitute, but wreathing around the memory of the Volunteer Organization of the New York Fire Department a record of fame and usefulness, of which both themselves and their children in after time may well be proud.”

On the 4th of April another communication was received, transmitting resolution, adopted by the Board of Aldermen

requesting the officers of the Fire Department, together with the Board of Engineers and Foremen, to appoint a committee to confer with the committee of the Common Council on the proper steps to be taken in reference to the "Metropolitan Fire Act." A meeting of the officers and Board of Engineers and Foremen was called, and committee appointed, with instructions to confer with joint committees of the Common Council. While said committee had the matter in question under consideration, the Commissioners, under the act, organized on the 2d day of May. Immediately on their organization the Attorney-General of the State, in his official capacity and on behalf of the people, sued out an injunction enjoining them from taking possession of the city's property, also a writ of *quo warranto*, compelling them to show by what warrant they held their office as Fire Commissioners (the Attorney-General believing that the said "Metropolitan Fire Law" was unconstitutional). The matter was tried in the Supreme Court and finally carried to the Court of Appeals at Albany. That court, on the 22d day of June, deciding the law constitutional, the Commissioners, under the law, took possession of the Department immediately.

As soon thereafter as possible the inventory before-mentioned was taken, and the transfer made. This report, therefore, concludes my official connection with your Honorable Body as Chief Engineer of the Volunteer Fire Department.

As stated in the opening paragraph, this report embraces the usual statistics, which will be valuable as a matter of reference, and as showing the exact condition of the Volunteer Fire Department at the date of its extinction.

The Department at present consists of nineteen (19) Engineers, eighteen hundred and sixty-nine (1869) members of engine companies, ten hundred and seventy-five (1075) members of hose companies, and five hundred and fifty-eight (558) members of hook and ladder companies, presenting a total of three thousand four hundred and twenty-one (3,421).

These are divided into fifty-two (52) engine companies, fifty-four (54) hose companies, and seventeen (17) hook and ladder companies, making a total of one hundred and twenty-three companies.

I have paid to John S. Giles, Esq., Treasurer of the Widow and Orphans' Fund of the New York Fire Department, the sum of four thousand four hundred and forty dollars (\$4,440), being the amount received by me during the past year, ending June 30, 1865, for firemen's initiation certificates.

In connection with this matter, I desire to call your attention to the fact that, by the passage of the "Metropolitan Fire Law," this fund is deprived of a large amount of revenue formerly received from various sources, such as donations, initiation certificates, &c., in consequence of which it will in a very few years become extinct, leaving the widows and orphans of our deceased associates to suffer for the want of the noble charity that has so long and so liberally assisted them.

The gross amount of this fund at this date is one hundred thousand dollars (\$100,000). The interest of this amount is not sufficient to defray the annual expenditures; the deficiency was formerly made up by the receipts before mentioned. These being no longer available, some other provision will have to be made, if possible, in order to

preserve the principal of the fund intact, and perpetuate its usefulness.

I have, therefore, directed the attention of your Honorable Body to this matter, knowing that no more worthy charity ever received your assistance. Several of the gentlemen at present composing both branches of the Common Council have long been connected, and personally identified, with the Volunteer Fire Department, and will, I have no doubt, endeavor to secure as long a continuance of this charity as possible.

It would certainly not be flattering to the representatives of the people of this metropolis were they to permit the widows and orphans of those firemen who have sacrificed their lives for the public good to suffer by the extinction of this fund.

Whatever the abuse that was heaped upon the firemen of this city by the press, and through the press by those who desired to abolish the volunteer system in order to advance their political ends, or whatever the danger to life or limb, they were at all times ready and willing to assist to the utmost extent of their ability in preserving the lives and property of their fellow-citizens, and are deserving of unqualified praise for their self-sacrificing actions, and the widows and orphans of their deceased brethren should be well provided for.

The total amount of loss by fire during the past year is two million one hundred and nine thousand eight hundred and ninety-one dollars (\$2,109,891).

The tabular statement annexed shows in detail the loss in each month, together with the number of fires in each district.

SCHEDULE,

Showing the number of Fires in each District, and amount of Loss, from June 1, 1864, to June 30, 1865, inclusive.

Total number of Fires, from June 1, 1864, to June 30, 1865..... 655

Shortly after making my last annual report, several officers of the Department recommended a revision of the ordinances, in fact, a reorganization of the Department, with the intention of breaking up such abuses as had crept into it : by reducing its cost, and making the Department responsible for its expenses ; reducing the number of hose companies ; increasing the number of Assistant Engineers, and having them properly located, and making them responsible to the Fire Commissioners as to amount of duty performed, and the manner of performing it ; altering the manner of selecting them, also giving them, in addition to their other duties, power to make rules for the government of bell-ringers and engineers of steam-engines ; abolishing the payment of expenses by the city for election for Chief and Assistant Engineers ; giving the Fire Commissioners power to disband companies if not needed ; making the bell-ringers and engineers of steam-engines responsible to the Fire Commissioners.

I called a meeting at Firemen's Hall, on the 27th of September, 1864, of the Board of Representatives, Fire and Appeal Commissioners, Trustees, Engineers, and Foremen and Assistant Foremen, for the purpose of taking the matter of reorganization into consideration. After considerable interchange of opinion, it was unanimously resolved to appoint a committee of twenty, selected from all branches of the Department, for the purpose of preparing a revision of the ordinances governing the Department, and with instructions to report to the convention appointing them in twenty days. The committee organized after the adjournment of the meeting of the convention by appointing John J. Gorman, Esq., President of Board of Fire Com-

missioners, as chairman, and held about a dozen meetings, at every one of which was a full attendance, and the deepest interest manifested in everything presented for the good of the Department; in fact, no committee in my recollection ever worked so zealously and harmoniously for the good of the Department and the people.

They finally agreed to present to the convention a revision of all the ordinances for the government of the Department. The convention held three additional meetings, and, with one or two slight amendments, resolved to ask your Honorable Body to adopt said revision, which you did, it receiving the signature of his Honor the Mayor, December 24, 1864.

This ordinance was all that was necessary for the government of the Department. It was made by practical and experienced firemen, and under it the fires in this city could have been extinguished quicker, with less damage to property, and at a less cost to the people, than any department in the world.

In relation to the expenditure of money for the Department, as a body it was not responsible, nor were any of its officers, before the passage of the Revised Ordinances of December, 1864. The Common Council and Street Commissioner's Department (not including the Bureau of the Chief Engineer) disbursed almost all the moneys charged to the Fire Department, its officers having little or no control of it. Costly houses, beautiful apparatus, and extravagant furniture and supplies were granted to fire companies without consulting the Chief Engineer or any officer of the Department.

In relation to hose companies, although it was admitted by all experienced firemen that two-thirds of them might be abolished, yet, until the passage of the Revised Ordinances of 1864, there was no power to do so unless for violation of law or ordinance. When I entered upon the discharge of my duties as Chief Engineer, there were fifty-seven (57) hose companies; there are now only fifty-four (54), having decreased three companies in five and a half years, and if the Department could have remained under the present officers, there would not have been, in my opinion, one dozen hose companies in New York by January 1, 1866, thereby reducing the number of men, and also the expenses of the department, very materially. I am of the opinion that the whole expense of the Department, under the new ordinance, would not have exceeded three hundred thousand dollars (\$300,000) per annum, while under the metropolitan law the Commissioners have asked for six hundred thousand dollars (\$600,000) for six months.

In the early part of last January, I saw by the newspapers that notice had been given in the Senate of this State that a bill for a "Paid Fire Department" for this city would be presented. I immediately had a meeting called to ascertain the feeling of the firemen on this subject, and it was unanimously resolved that we earnestly but respectfully protest against the passage of any bill for a paid department. The Department was almost unanimously opposed to any change, and our arguments before the Committee of the Assembly were so powerful and unanswerable, that I am of the opinion that the Metropolitan fire bill would have been defeated, as it should have

been, had not some of the insurance companies of this city submitted to a tax on their capital, amounting to fifty thousand dollars (\$50,000), and placed it in the hands of a committee who were urging the passage of the Metropolitan fire bill, after which arguments were in vain. I regret having to say that any moneyed corporation in the city of New York would use its capital for such a purpose.

We have a paid Fire Department now, and the people must for a time, at least, submit to the influence of the moneyed power of this city, notwithstanding the cost of one hundred thousand dollars (\$100,000) per month, when the same work could be done better, more satisfactorily to the people, and with less loss of property for one quarter that sum.

While the Metropolitan fire bill was pending before the Legislature, its friends abused the members of the Volunteer Department shamefully, calling to their aid almost all the epithets and vile slang that low minds could invent; but, notwithstanding all this untruthful, uncalled-for, and unnecessary abuse, the firemen did not desert the people in the hour of need, although the friends of the bill asserted that the moment it would pass the Legislature they would cease to perform duty, and even went so far as to ask the assistance of the police to extinguish fires; but, on the contrary, up to this date the firemen are performing their duty as faithfully and cheerfully as they ever did, and they will continue to do so until honorably discharged.

The firemen of this city are as intelligent, honest, sober, and industrious as any body of nearly four thousand men in the world. Some of our best merchants, bankers, mechanics, and tradesmen have been and are at present members of the Fire Department, and are proud to have it known in their social and business circles, and will always be pleased to remember that they belonged to the Volunteer Fire Department of this city.

In concluding this my last report, I desire to thank the Honorable the Mayor and Commonalty of this city, also the heads of the different departments with whom I have had official business, for many acts of kindness received at their hands.

I also desire to return my thanks to the firemen for the prompt manner in which they have always obeyed my orders and discharged their duties since they called me to command them ; also, for the profound respect with which they always have treated me either on or off duty.

The Board of Fire Commissioners, during my tenure of office as Chief Engineer, have labored very industriously for the public good, sitting at Firemen's Hall two and three nights in the week, and often until one and two o'clock in the morning, discharging their public duties. They introduced into the Department many healthy reforms, and to their perseverance, in a great measure, is due its good order, discipline, and thorough organization; and when we consider that all their labor and thought for

the public good was without any recompense for their services, we can at least say, at the close of their work, "well done, good and faithful servants."

Respectfully submitted,

JOHN DECKER,

Chief Engineer.

COMMUNICATION
FROM THE
STREET COMMISSIONER,
TRANSMITTING HIS
THIRD QUARTERLY REPORT FOR THE YEAR 1865;
BRING THE
Business of the Street Department
UP TO AND INCLUDING
SEPTEMBER 30TH, 1865.

BOARD OF ALDERMEN,
December 12th, 1865.

DOCUMENT No. 16.

NEW YORK:
EDMUND JONES & CO., PRINTERS TO THE CORPORATION,
No. 26 JOHN STREET.
1865.

DOCUMENT No. 16.

BOARD OF ALDERMEN,

SEPTEMBER 30, 1865.

The following communication from the Street Commissioner, submitting his Third Quarterly Report for the year 1865, being business of the Street Department up to and including September 30, 1865, was received, laid on the table, and the usual number of copies ordered to be printed in document form.

D. T. VALENTINE,

Clerk.

STREET COMMISSIONER'S OFFICE, }
NEW YORK, September 30, 1865. }

To the Honorable the Common Council:

GENTLEMEN—In accordance with the provisions contained in Section 29 of Charter of 1857, and in compli-

ance with the city ordinances, I have the honor to submit for your information the following report of the public business transacted by this Department during the quarter ending this day.

There have been expenditures created, and vouchers drawn in payment therefor, amounting to the sum of four hundred and thirty-nine thousand and twenty-six dollars and fifteen cents (\$439,026.15). Of this amount, forty-five thousand seven hundred and thirty-six dollars and eighteen cents (\$45,736.18) was drawn upon Trust Account, which will be reimbursed the City Treasury by assessment upon the property benefited thereby.

Appendix A, herewith submitted, shows, in a concise form, the balance of appropriations for the Street Department on hand, January 1, 1865; amount appropriated by the Legislature for the year 1865; the amount of requisitions drawn upon the Comptroller by the Street Commissioner on each appropriation and account during the first six months, as also for the third quarter of the present year; and the balance on hand of all appropriations appertaining to this Department on October 1, 1865.

Appendix B, also herewith submitted, presents in full detail the amount charged, and for what purpose, of every requisition drawn during the past quarter, together with a statement of the assessment lists delivered the Collector of Assessments, the amounts collected by him and paid to

Daniel Devlin, City Chamberlain, name and amount of every list returned by him uncollected to the Clerk of Arrears, and all other matter under the cognizance of the book-keeper, accompanied with a concise statement of the same.

I have the honor, also, of submitting for your consideration the reports of the Superintendents of the several bureaux of this Department, giving a complete exhibit of the public business done by them respectively, together with a statement of all vouchers drawn by them. They report having drawn vouchers during the quarter for the following amounts for their respective bureaux :

Bureau of Lamps and Gas.....	\$77,960 12
Bureau of Lands and Places.....	22,969 71
Bureau of Roads.....	45,682 06
Bureau of Superintendent of Repairs and Supplies.....	31,586 37
Deputy Superintendent of Repairs and Supplies.....	62,100 05
Bureau of Street Improvements.....	62,490 50
Bureau of Wharves, Piers, and Slips.....	73,126 48

Your Honorable Bodies will, however, note that, of the amount for which vouchers were drawn in the Bureau of Street Improvements, viz., sixty-two thousand four hundred and ninety dollars and fifty cents (\$62,490.50), forty-

four thousand and ninety dollars and thirty-two cents (\$44,090.32) was drawn on Trust Account exclusively, and will be refunded the City Treasury; the balance, eighteen thousand four hundred dollars and eighteen cents, was expended on "Battery Enlargement," "Working Eighth avenue, from One Hundred and Fortieth to One Hundred and Fifty-ninth street," "Street Improvements," and contingencies of Bureau.

On the 1st day of July, 1865, there remained, in the hands of the Collector of Assessments, lists amounting to the sum of three hundred and ninety-eight thousand one hundred and forty-six dollars and fifty-one cents (\$398,146.51). During the quarter there has been transmitted to him for collection, lists amounting to five hundred and two thousand and eleven dollars and twenty-four cents (\$502,011.24); also, one thousand two hundred and thirty-five dollars and fifteen cents (\$1,235.15) has been collected for interest on assessments. The Collector has collected, and paid (as per receipts) to the City Chamberlain in the same time, one hundred and twenty-five thousand and twenty-three dollars and twenty-two cents (\$125,023.22), and returned to the Clerk of Arrears, uncollected assessments amounting to the sum of five thousand one hundred and fifty-seven dollars and ninety-nine cents (\$5,157.99).

The Collector has also transmitted to the Comptroller, for correction and revision, assessment lists amounting to the sum of thirty thousand two hundred and eighty-three dollars and fourteen cents (\$30,283.14), leaving in the

Collector's hands, on this date, uncollected assessments amounting to seven hundred and forty thousand nine hundred and twenty-eight dollars and fifty-five cents (\$740,928.55).

Respectfully,

CHARLES G. CORNELL,

Street Commissioner.

APPENDIX A.

STATEMENT, showing the Balance of Appropriations for the Street Department on hand January 1, 1865; Amount Appropriated by the Legislature for 1865; Total Amount of Appropriations for the year 1865; Amount of Requisitions drawn by the Street Commissioner upon the Comptroller for the Six Months ending June 30, 1865; Amount of Requisitions drawn for the Quarter ending September 30, 1865; Total Amount of Requisitions drawn for the Nine Months ending September 30, 1865, and showing the Balance available October 1, 1865.

Book-keeper, Bureau of Street Improvements.

STREET DEPARTMENT,
BUREAU OF WHARVES, PIERS, AND SLIPS, }
237 BROADWAY,

NEW YORK, September 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—The Third Quarterly Report, showing the business transactions of this Bureau for the quarter ending September 30, 1865, is herewith respectfully transmitted.

Schedule A contains a detailed statement of the amount of expenditures for this quarter, amounting to seventy-three thousand one hundred and twenty-six dollars and forty-eight cents (\$73,126.48).

The appropriations upon which vouchers have been drawn and the amount thereof, during the same period, is shown in Schedule B.

Schedule C contains a statement of contracts finished, but upon which as yet vouchers have not been drawn, also a statement of contracts now in progress.

There are still a great many piers in a very dangerous condition, but, owing to the limited amount placed at the disposal of this Bureau, I have been unable to perform the necessary repairs upon them. In my next report I shall take occasion to submit a statement of the condition of all the piers and bulkheads belonging to the city.

Respectfully, &c.,

ROBERT EARL,

Superintendent of Wharves &c.

	<hr/>

STREET DEPARTMENT, BUREAU OF ROADS, }
 NEW YORK, September 30, 1865. }

C. G. CORNELL, Esq., *Street Commissioner* :

SIR—I hereby acknowledge the receipt of your Circular Letter, bearing date of the 14th instant, and in reply have the honor to report as to the public business performed by this Bureau during the quarter ending this 30th day of September, 1865.

The amount of expenditures on appropriations appertaining exclusively to this Bureau is forty-five thousand six hundred and nineteen dollars and fifty-six cents (\$45,619.56), together with the sum of sixty-two dollars and fifty cents (\$62.50), drawn on "Contingencies—Street Department," by this Bureau, making an aggregate of forty-five thousand six hundred and eighty-two dollars and six cents (\$45,682.06).

The vouchers for this sum were drawn respectively on the following appropriations :

Roads and Avenues.....	\$41,297 56
Jauncey lane.....	2,000 00
Breakneck Hill road.....	1,500 00
Eleventh avenue.....	822 00
Contingencies—Street Department.....	62 50

Total expenditures during the quarter ending September 30, 1865.....	\$45,682 06
---	-------------

Total available balance against which I have drawn no vouchers.....	\$22,889 66
--	-------------

Since my last report, in addition to the roads then undergoing repairs, work has been commenced upon the following : Tenth avenue, One Hundred and Tenth street, Tubby Hook, and Fort Washington roads.

Various other streets and avenues have been repaired, and the attention of this Bureau is constantly given to prevent the rapid damage to the roads which the lack of constant watchfulness would allow at the commencement of wear or injury by storms, &c.

Respectfully,

ISAAC EDWARDS,

Superintendent of Roads.

STREET DEPARTMENT, }
BUREAU OF LANDS AND PLACES, }

NEW YORK, September 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner*:

SIR—In compliance with the instructions contained in your Circular Letter of the 14th instant, I herewith transmit a statement of the affairs of this Bureau for the quarter ending this 30th day of September, 1865.

The amount of appropriation for "Lands and Places" for 1865, is forty thousand dollars (\$40,000), also an unexpended balance, of last year's appropriation, of nine hundred and twenty-three dollars and fifty-three cents (\$923.53), of which was expended, during the first quarter, three hundred and seventy-three dollars and twenty-five cents (\$373.25), and during the second quarter, seventeen thousand one hundred and eighty-one dollars and three cents (\$17,181.03), and during the third quarter, twenty-two thousand nine hundred and sixty-nine dollars and seventy-

one cents (\$22,969.71), leaving an unexpended balance of three hundred and ninety-nine dollars and fifty-four cents (\$399.54).

Respectfully submitted,

ALEXANDER WARD,

Superintendent of Lands and Places.

STREET DEPARTMENT, }
 BUREAU OF LAMPS AND GAS, }
 NEW YORK, September 30, 1865.

CHARLES G. CORNELL, Esq., *Street Commissioner* :

SIR—In compliance with the directions contained in your Circular Letter of the 14th instant, I herewith submit my report of the work done, and expenditures incurred, in the Bureau of Lamps and Gas, during the three months ending this date.

In Exhibit marked "A" you will find an abstract of all vouchers certified by me during the quarter. In Exhibit B you will find a statement showing the amounts paid for gas, &c., to the various Public Markets, Bell-towers, Public Offices, &c., and for fitting, repairing, and lighting the public lamps; and in Exhibit C, a statement of expenditures, as shown by the certified vouchers of this Bureau, showing an expenditure during the quarter of seventy-seven thousand nine hundred and sixty dollars and twelve cents (\$77,960.12), leaving a balance, against which no vouchers have been drawn, of three hundred and one thousand seven hundred and fourteen dollars and twenty-six cents (\$301,714.26). You will also find in this statement a list of liabilities against the Bureau, amounting to about two hundred and sixty-three thousand five hundred and seventy-three dollars ninety-seven cents (\$263,573.97), leaving an available balance of about thirty-eight thousand one hundred and forty dollars and twenty-nine

cents (\$38,140.29). These liabilities, as you will perceive, are principally on account of lighting the public lamps and are based upon the prices paid for the same work under the old contract. No bills have been paid for lighting the public lamps situated between Forty-second and Seventy-ninth streets since September 1, 1864, and none for the lamps between Grand and Forty-second streets since January 1, 1865. The New York and Harlem Gas-light Companies have been paid for lighting the lamps in their respective districts up to August 31, 1865, at the prices mentioned in their expired contracts, less ten per cent. retained, pending the decision of the Court of Appeals, in the suit which the Harlem Gas-light Company have instituted against the city. If the decision of that court should be adverse to the city, the liabilities will be largely in excess of those specified above.

All of which is respectfully submitted,

(Signed) WILLIAM H. CHARLOCK,

Superintendent of Lamps and Gas.

EXHIBIT A.

ABSTRACT OF VOUCHERS, certified by WILLIAM H. CHARLOCK, Superintendent of Lamps and Gas, on Account of the Appropriation for Lamps and Gas for the year 1865, for the Quarter ending September 30, 1865.
